Welcome

Welcome to our new 2026-27 season Tree Catalogue

I would like to start by thanking you for your continued support and custom. The trust you place in both our trees and our team is greatly valued and is something we never take for granted and plays an important part in shaping the way we grow, select and supply our trees to the quality standards we maintain.

This season, we are pleased to introduce an exciting range of new varieties alongside the trusted favourites that have proven popular with garden centres and their customers alike. We know how important it is to offer trees that not only look great on your retail space but also perform well in the garden, giving customers confidence in their purchase and long-term enjoyment as their trees establish and grow.

Every tree in our range is carefully grown and selected with retail success in mind – strong, well-shaped stock that presents well at retail and performs reliably in the garden and real value for your customers. Our aim is to help our customers offer inspiring choices that meet the growing demand for quality trees, whether for small gardens, feature planting, or long-term landscape value.

This season is also an important milestone for us as we transition to our new Tree Park at Newey. This move marks a significant investment in our future, allowing us to expand our growing capacity, improve efficiencies, and continue strengthening the quality and consistency of the stock and service you rely on.

We understand that your customers are looking for more than just a tree – they're investing in their gardens, their homes, and their outdoor spaces. We're proud to support you in offering trees that will inspire confidence at the point of sale and deliver satisfaction for years to come.

Thank you for your continued partnership and for growing with us.

Tree Calendar

2026–27

Our Tree Calendar has been created to help you plan your promotional sales throughout the year – month by month and tree by tree. It provides inspiration, seasonal ideas and expert guidance to help you advise your customers and highlight trees of interest all year round.

- JANUARY**
- Acacia dealbata Gaulois Astier
 - Acer davidii Viper
 - Betula utilis var. jacquemontii
 - Prunus serrula
 - Salix caprea Pendula
 - Salix chrysocoma

- FEBRUARY**
- Acer conspicuum Red Flamingo
 - Betula utilis Grayswood Ghost
 - Betula utilis Snow Queen
 - Prunus JFS First Blush
 - Prunus Marie Mallet
 - Prunus cerasifera Pissardii Nigra
 - Prunus subhirtella Autumnalis Rosea

- MARCH**
- Prunus Kursar
 - Prunus Okame
 - Prunus Pandora
 - Prunus Snow Showers
 - Prunus cerasifera Spring Glow
 - Prunus x blireana
 - Amelanchier canadensis
 - Amelanchier x grandiflora Ballerina

- APRIL**
- Cercis canadensis Forest Pansy
 - Cercis chinensis Avondale
 - Cercis chinensis Shirobana
 - Cercis siliquastrum Bodnant
 - Malus JFS Royal Raindrops
 - Prunus Accolade
 - Prunus JFS Pink Cascade
 - Prunus incisa The Bride

- MAY**
- Ceanothus arboreus Trewithen Blue
 - Crataegus laevigata Paul's Scarlet
 - Crataegus laevigata Plena
 - Crataegus x media Crimson Cloud
 - Malus Cherry Moon
 - Malus x purpurea Crimson Cascade
 - Pyrus salicifolia Pendula

- JUNE**
- Acer platanoides Crimson Sentry
 - Acer platanoides Drummondii
 - Eucalyptus gunnii
 - Acer platanoides Princeton Gold
 - Acer conspicuum Red Flamingo
 - Salix integra Hakuro-Nishiki
 - Cercis canadensis Hearts of Gold
 - Cercis canadensis Eternal Flame
 - Cercis canadensis Carolina Sweetheart

- JULY**
- Acer platanoides Crimson King
 - Acer platanoides Princeton Gold
 - Albizia julibrissin Eveys Pride
 - Albizia julibrissin Umbrella
 - Cytisus battandieri
 - Gleditsia triacanthos Sunburst

- AUGUST**
- Albizia julibrissin Summer Chocolate
 - Sambucus nigra Black Lace
 - Photinia x fraseri Louise
 - Eucalyptus gunnii Azura
 - Hoheria sexstylosa Snow White
 - Fagus sylvatica Purpurea

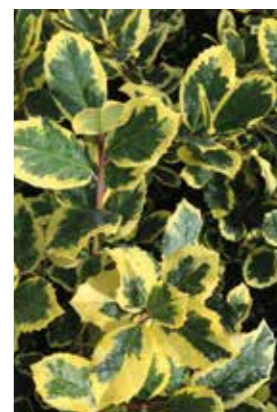

- SEPTEMBER**
- Amelanchier canadensis
 - Malus Evereste
 - Malus John Downie
 - Malus Golden Hornet
 - Malus Red Sentinel
 - Photinia x fraseri Red Robin

- OCTOBER**
- Acer davidii Viper
 - Acer rubrum L. JFS Redpointe
 - Amelanchier canadensis October Flame
 - Fagus sylvatica
 - Liquidambar styraciflua Worplesdon
 - Malus x robusta Fruitilicious
 - Sorbus Autumn Spire
 - Sorbus aucuparia
 - Sorbus commixta Olympic Flame

- NOVEMBER**
- Ginkgo biloba
 - Parrotia persica
 - Prunus subhirtella Autumnalis Rosea

- DECEMBER**
- Acer davidii Viper
 - Betula pendula
 - Ilex x altaclerensis Golden King
 - Prunus serrula
 - Salix chrysocoma
 - Salix matsudana Tortuosa

New Breeding and Introductions

Newey continues to work closely with its partners to bring exciting new breeding innovations to the UK market. Our partnership with J. Frank Schmidt & Son Co. in Oregon, United States goes from strength to strength, with six new introductions featured in this season's catalogue.

These join the well-established JFS varieties already in our range, including Acer L. JFS Redpointe, Malus JFS Royal Raindrops, Prunus JFS First Blush and Prunus JFS Pink Cascade.

Alongside our relationship with J. Frank Schmidt & Son Co., we are also excited to be working with a global network of breeders, including Plantipp, Van Vliet New Plants, and Genesis Plant Marketing, to bring innovative new products that complement our range of tried-and-tested favourites, varieties that have been consistent winners for many years.

Among the highlights are Cercis Blue Lagoon, Betula Fuzzy Feathers and Cornus Flower Tower, all currently in commercial trials, with planned introductions in 2027.

Something for every garden and outdoor space.

Point of Sale

Our point of sale (POS) is specifically designed to assist you and your customers with common inquiries. We provide a set of four A2 boards (Fruit trees, Trees for small spaces, Trees for seasonal interest, and Evergreens) with your initial tree order at no additional cost. If you need extra or replacement boards, please reach out to the sales team at sales@newey.com

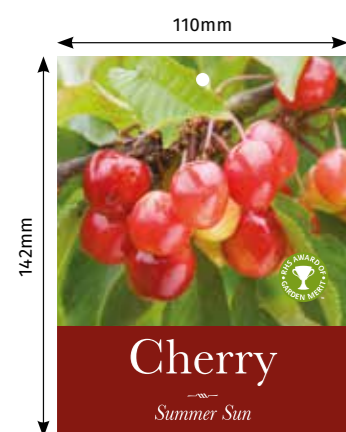

Labels

All of our trees are supplied in 10 or 12 litre containers with a high quality bespoke picture label.

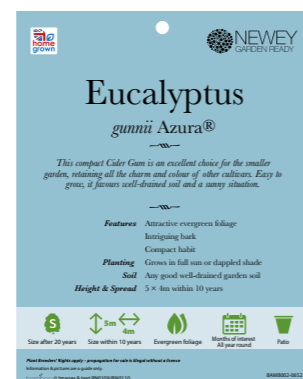

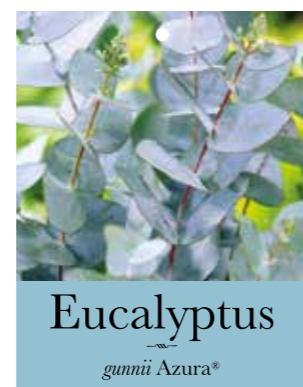

We offer pre-priced loop lock labels if required. Please supply your retail prices with your annual reserve order or, alternatively, with each order you make. All trees are supplied with your barcodes that match your epos system.

Fruit Tree Label

Our new plant care cards feature easy-to-read design icons that help customers quickly understand essential care information at a glance. Each label also includes cultural care details and high-quality images designed to attract attention and support sales.

Fruit Trees

With over 40 years of experience, we are proud to offer a comprehensive range of high-quality fruit trees using certified stocks.

This includes the classic Apples, Pears, Plums and other fruit tree varieties.

Our range now features many trees produced on dwarf or semi-dwarfing rootstocks which are more suited to small and medium sized gardens. Keep an eye out for the M26 (semi-dwarf), M27 (very dwarf) rootstocks and the Starline range of Apples which produces fruit on a Pillar tree.

Rootstock

Rootstocks are the lower part of a fruit tree, typically from a different species or variety than the desired fruiting tree. Grafted onto the desired variety, they create a single tree with combined characteristics. Rootstocks vary in vigour, determining the tree's eventual size – options include dwarfing, semi-dwarfing or semi-vigorous.

Rootstocks influence fruit set, maturity time, and contribute to benefits such as space efficiency, early harvest, disease protection and soil adaptability.

Apple Root Stock	
A2 – Very Dwarf	Ideal for very small gardens and container grown trees. Ultimate height 1–2m in ten years.
M27 – Dwarf	Ideal for small gardens or tub culture. Requires staking. Ultimate height less than 2m in ten years.
M26 – Semi Dwarf	Good for restricted spaces, requires staking. Ultimate height 2.5m in ten years.
MM106 – Semi Vigorous	Suitable for most soils and exposed sites. Ultimate height around 3.5m in ten years.

Understanding Fruit Tree Pollination

Most fruit trees need pollen from a different variety of the same species for fruit setting.

Pollination groups aid gardeners in selecting compatible varieties for cross-pollination, ensuring a fruitful harvest. Insects, such as bees, facilitate pollination by transferring pollen between flowers.

Fruit trees are grouped by their flowering times, using letters (e.g., A, B, C) or numbers (e.g., 1, 2, 3). For instance, an apple tree in Group 3 will cross-pollinate with those in groups 2, 3, and 4.

Pollination Group			
2	Pollinated by groups one, two and three.	4	Pollinated by groups three, four and five.
3	Pollinated by groups two, three and four.	5	Pollinated by groups four, five and six.

Additional considerations

Self-Pollination: Some varieties are self-fertile but often benefit from cross-pollination for better yields.

Distance: Ideally, plant compatible trees within 20–30m to enhance bee activity and pollination success.

Starline Blue Moon (P)
Apple

12 | A2 | 3 | SF | 🍏

A compact, columnar apple tree that produces an abundance of eye-catching purple-blue apples. Its leaves are glossy green, turning shades of amber and crimson in autumn. In late spring, the tree bursts into bloom with clusters of small, fragrant white flowers. Blue Moon is a self-fertile cultivar, making it a great choice for gardeners with limited space. The apples are crisp and juicy, with a sweet and tangy flavour. Harvest from August to October.

Starline Greenfinch (P)
Apple

12 | A2 | 3 | SF | 🍏

A compact columnar apple tree that produces an abundant harvest of large, green apples with a crisp, slightly acidic flavour. The attractive, fragrant white flowers bloom in spring, adding a touch of elegance to the garden. The tree is self-fertile and disease resistant, making it an ideal choice for small gardens and patios. Harvest from August to October.

Blenheim Orange
Apple

12 | M26 / MM106 | 3 | T | 🍏

Revered for its unique flavour and versatility. Its large, slightly russet-coated fruits exhibit a striking combination of green, yellow, and orange hues, often with red streaks. The flesh is crisp and slightly crumbly, offering a delightful balance of sweetness and tartness, with a distinct nutty undertone. Ideal for fresh consumption, Blenheim Orange apples also excel in baking and cooking, producing a fine puree for pies, sauces, and tarts. Harvest in October.

Braeburn
Apple

12 | M26 / MM106 | 4 | 🍏

A popular dessert apple known for its delightful combination of crispness, sweetness, and tartness. Its medium-sized fruits boast a distinctively attractive appearance, featuring a smooth, yellow-green base with vibrant red and orange streaks radiating across its surface. The Braeburn apple tree produces small, pink-tinged flowers in late spring, adding a touch of charm to the orchard or home garden. These blooms eventually give way to the prized apples, which ripen in late autumn. Harvest in October.

Bramley Seedling
Apple

12 | M26 / M27 / MM106 | 3 | T | 🍏

Recognised as the ultimate cooking apple, this variety is valued for its outstanding culinary attributes. Its rounded green fruits boast a strong, tangy taste that evolves into a delightful sweetness when cooked. In autumn, the large, oval leaves of the apple take on a vibrant red hue. During spring, the tree adorns itself with fragrant white blossoms, introducing a touch of elegance to the garden.

A

Cox's Orange Pippin (SF)
Apple

12 | 🌱 M26 / M27 / MM106 | 🍏 3 | 🍏 SF | 🍷 🍏

Known for its exceptional flavour. Its leaves are medium-sized, oval and dark green in colour, adding a touch of vibrancy to the tree's form. In mid-spring the tree bursts into bloom, adorned with clusters of fragrant, pale pink flowers that delicately perfume the air. The fruits themselves are medium-sized, with a distinctive reddish-orange skin that deepens to a vibrant crimson hue. Their flesh is firm, juicy, and aromatic, boasting a complex flavour profile with hints of cherry. Prized for their crispness, sweetness and exquisite taste. They are often enjoyed fresh, baked in pies and tarts, or transformed into delectable preserves and jellies.

Fiesta
Apple

12 | 🌱 M26 / MM106 | 🍏 3 | 🍏

A delightful apple variety, medium-sized leaves are a vibrant green, transforming into shades of red and orange in autumn, creating a captivating spectacle of colour. In late spring, the tree bursts into a flurry of pale pink flowers. The fruits of Apple Fiesta are a sight to behold, with their striking red and orange hues. Harvest in October.

James Grieve
Apple

12 | 🌱 M26 / M27 / MM106 | 🍏 3 | 🍷 🍏

Renowned for its crisp, juicy flesh and delightful flavour. Its leaves are medium-sized, oval-shaped, and dark green in colour, adding a touch of vibrancy to your garden. In spring, the tree bursts into a charming display of small, white flowers, creating a delicate fragrance that fills the air. As summer progresses, the apples ripen to a vibrant red hue, offering a burst of colour. Harvest in September.

A

Discovery
Apple

12 | 🌱 M26 / MM106 | 🍏 3 | 🍏

A delightful early-season dessert apple that delights with its sweet, tangy flavour and refreshing strawberry notes. Its small, round fruits sport a vibrant, scarlet-red hue. The leaves are medium-sized, ovate, and dark green, maturing to a rich autumnal hue of orange and red.

Egremont Russet
Apple

12 | 🌱 M26 / M27 / MM106 | 🍏 2 | 🍏

A unique variety known for its russeted skin and rich nutty flavour. Its leaves are medium-sized, oval to oblong, and glossy green in colour. They turn a beautiful shade of red or orange in autumn. The flowers are small white, and fragrant, blooming in late spring. The fruit is medium to large, round to oblong, and has a russet-orange skin with a firm, crisp and juicy flesh. It has a rich, nutty flavour that is best when slightly underripe. Harvest in October.

Golden Delicious
Apple

12 | 🌱 M26 / MM106 | 🍏 4 | 🍷 🍏

A beloved apple variety known for its honey-sweet flavour and smooth, yellowish-green skin. Its leaves are medium-sized, oval-shaped, and bright green with a slightly glossy finish. They turn a vibrant shade of red or orange in the autumn, adding a splash of colour. Golden Delicious apples bloom in mid-spring, with clusters of small, white flowers adorning the branches. The flowers emit a delicate fragrance. Harvest in November.

A

Katy
Apple

12 | M26 / MM106 | 3 |

A delightful dessert apple that delights with its juicy, mild flavour and attractive appearance. It bears medium-sized, round, bright red apples with a refreshing hint of strawberry. Katy's leaves are medium-sized and oval, with a glossy, dark green colour that turns a vibrant shade of orange in autumn. The flowers are small, white, and mildly fragrant, appearing in clusters in late spring. Katy is a relatively easy-to-grow apple tree providing a bountiful harvest of delicious apples.

Kidd's Orange Red
Apple

12 | M26 / MM106 | 3 |

Budding into a profusion of cheerful pink blossoms in spring, Kidd's Orange Red apple tree unveils a remarkable display of sweetness and vibrant hues. Its medium-sized, roundish fruits boast a rich orange blush over a vibrant yellow background, hinting at the delightful flavours within. The crisp, sweet flesh of Kidd's Orange Red is a true delight, offering a complex blend of honey, pear, and citrus notes. Perfect for juice. Good disease resistance and well suited to northern areas. Harvest in October.

Laxton's Superb
Apple

12 | M26 / M27 / MM106 | 4 |

A late-season dessert apple renowned for its sweet and aromatic flavour, reminiscent of the beloved Cox's Orange Pippin. Its medium-sized fruit boasts a distinctive greenish-red skin, often adorned with subtle purple blushes. The firm, white-green flesh is packed with a delightful blend of sweetness, tartness, and a hint of aniseed. Laxton's Superb is a versatile apple, suitable for fresh consumption, baking, or preserving. It ripens in late October and can be stored for up to two months, making it a cherished fruit for a long winter season. Harvest in November.

Red Devil
Apple

12 | M26 / MM106 | 3 |

A vibrant and flavourful apple variety known for its striking crimson skin and juicy, strawberry-scented flesh. Its leaves are glossy green in summer, transitioning to a fiery crimson in autumn. Blooming in early spring, the tree showcases delicate pink-red blossoms that add a touch of elegance to the garden. Red Devil is an easy-to-grow apple tree that is relatively resistant to diseases. Harvest in September.

Red Falstaff (P)
Apple

12 | M26 / M27 / MM106 | 3 | SF |

Brings cheer to your garden with its glossy green leaves that turn fiery orange in autumn. Its smooth, grey bark adds texture and elegance. In spring, the tree bursts into bloom with clusters of fragrant white flowers, promising a delicious harvest to come. Come autumn, the branches bend under the weight of red blush, medium-sized apples with a crisp, juicy bite. Their sweet and refreshing flavour makes them perfect for eating fresh or baking into delectable treats. A heavy cropper and disease-resistant, Falstaff is a reliable choice for any apple lover, offering beauty, bounty, and deliciousness.

Scrumptious (P)
Apple

12 | M26 / M27 / MM106 | 3 | SF |

Boasts a vibrant ruby red skin that makes it a visual treat, complemented by creamy-white flesh that offers a delightful balance of sweetness and acidity. Its medium-sized, attractive fruits are a true treat, offering a crunchy, juicy texture that is perfect for fresh eating or preserving. Scrumptious apple trees are a self-fertile variety, ensuring bountiful harvests without the need for additional pollinators. If picked in September, can be eaten until October.

A

A

C

Spartan
Apple

12 | 🌱 M26 / MM106 | 🍏 3 | 🍏

A delightful dessert apple that showcases a vibrant crimson hue when fully ripened. Its smooth, firm flesh is a symphony of sweetness and tartness, infused with a subtle vinous flavour. The Spartan Apple's leaves are medium-sized, oval-shaped, and dark green in colour, adding a touch of verdant grace to the tree. Its flowers, though small, are delicately fragrant and bloom in late spring, creating a charming display of white blossoms. Harvest in October.

Sunset
Apple

12 | 🌱 M26 / M27 / MM106 | 🍏 3 | 🍏

A delightful dessert apple that graces your garden with its beauty and sweetness. Its large, vibrant green leaves, adorned with fine russet patches, turn a stunning shade of golden yellow with streaks of orange, reminiscent of a sunset, as the season progresses. In early spring, the tree bursts into bloom, showcasing clusters of delicate white flowers that emit a subtle fragrance. The fruits, resembling Cox's Orange Pippin, are roundish, with firm, crisp flesh that yields a sweet, acidic, and aromatic flavour. Harvest in September.

Cherry Root Stock

Colt – Semi Vigorous	Mature trees typically reach a height of 3.5–4.5m. Tolerates a wide range of soil conditions.
Gisela – Semi Vigorous	These vigour-reducing rootstocks significantly restrict tree growth, allowing you to enjoy delicious cherries even in compact gardens or containers. Mature trees typically reach a height of 3–3.5m.

Morello
Cherry

12 | 🌱 Colt / Gisela | 🍏 4 | 🍏

A versatile cherry tree that produces an abundance of large, dark red fruit with a sour taste, making them ideal for cooking and preserves. The leaves are oval to oblong, serrated, and glossy green, turning a vibrant red in autumn. The flowers are small, white, and fragrant, blooming in late spring. The tree is self-fertile, but it will produce a heavier crop if planted with another cherry tree for cross-pollination. Bears fruit on the young wood only, so prune for reliable cropping each year.

Summer Sun
Cherry

12 | 🌱 Colt | 🍏 3 | 🍏

A compact, self-fertile cherry tree that produces an abundance of sweet, dark red fruit in late July. The tree has a semi-upright to spreading growth habit. Its glossy, dark green leaves turn a vibrant red in autumn. The tree blooms in mid-spring with clusters of fragrant, single white flowers.

Stella
Cherry

12 | 🌱 Colt (Standard and Half Standard) / Gisela | 🍏 4 | 🍏

Produces an abundance of sweet, dark red cherries with a sweet and juicy flavour. It has a spreading, pyramidal shape with oval, serrated, dark green leaves. The tree blooms in spring with an explosion of fragrant, white flowers that create a stunning display.

Sunburst
Cherry

12 | 🌱 Colt / Gisela | 🍏 4 | 🍏

A stunning cherry tree that adorns your garden with a cascade of breathtaking blooms and a bountiful harvest of succulent cherries. Its glossy dark green leaves transform into a fiery spectacle of crimson and amber hues in autumn. The tree produces large, sweet, dark red cherries.

C

Damson/Gage Root Stock

Myrobalan – Semi Vigorous to Vigorous Suitable for most soils and exposed sites. Self-supporting after a few years. Ultimate height around 4.5m in ten years.

Fairleigh
Damson

12 | Myrobalan | 3 | SF | 🍷

A delightful fruit tree that produces a generous crop of small, intensely flavoured damson fruits. These plum-like fruits are typically dark blue in colour and have a slightly tart taste that is perfect for jams, jellies, and baking. It is also a self-fertile variety, so you can grow it without a pollinator. The leaves are oval-shaped and have a glossy dark green colour. The tree blooms in late spring with fragrant white flowers.

Merryweather
Damson

12 | Myrobalan | 3 | SF | 🍷

A popular damson variety known for its large, deep blue-black fruits with a sweet-tart flavour. The leaves are oval-shaped and dark green, turning a rich reddish purple in autumn. The tree produces a profusion of small, white flowers in mid-spring that add a delicate touch of fragrance.

Shropshire Prune
Damson

12 | Myrobalan | 3 | SF | 🍷

A beloved English variety of damson known for its rich history and delectable fruit. Its small, round leaves emerge in a bright green hue, turning a vibrant red in autumn. In late spring, the Shropshire Prune Damson bursts into bloom, adorned with clusters of small, fragrant white blossoms that fill the air with a sweet aroma. Ripening in mid-September, the damsons captivate with their deep purple colour, offering a unique taste that is both tart and sweet. These delectable fruits are perfect for making jams, preserves, and liqueurs.

Old Greengage
Gage

12 | Myrobalan | 3 | 🍷

Renowned for its exquisite sweetness and delectable flavour. Its small, oval-shaped fruits, initially green with a hint of red blush, transform into a vibrant yellow hue when fully ripe. The smooth, dark green leaves add a touch of serenity to the landscape, while the intricate bark, a blend of grey and brown tones, adds a touch of character to the tree's overall charm. In late spring, the tree bursts into a symphony of fragrance, adorned with delicate white flowers. Gage Old Greengage is a true gem of the fruit-bearing world.

Oullins Golden
Gage

12 | Myrobalan | 4 | 🍷

A beloved variety that produces luscious, golden-yellow fruits prized for their exceptional sweetness. The tree bears large, oval-shaped fruits with a smooth, thin skin that ripens from green to golden yellow in late summer. They produce abundant blooms in early spring, with clusters of fragrant, white flowers that add a touch of elegance to the garden.

Medlar Root Stock

Crataegus monogyna

Crataegus monogyna (Common Hawthorn) is a versatile rootstock in the Rosaceae family, primarily used for grafting other hawthorn varieties, pears, and medlars. It is valued for its extreme hardiness, deep root system, and ability to thrive in a variety of soils, including clay and chalk.

Nottingham
Medlar

12 | Crataegus monogyna | 4 | 🍷

The 'Nottingham' Medlar (*Mespilus germanica*) is widely considered the best-flavoured and most popular variety of this traditional English fruit. It is an attractive, small, deciduous tree that offers year-round interest with its gnarled, twisting trunk, large white flowers in spring, and leathery leaves that turn a striking golden-orange or russet-copper in autumn.

Morus Root Stock

Morus Alba

A vigorous rootstock, meaning it promotes strong tree growth and can support large cultivars like 'Wellington'. Overall height 4m–6m. Tolerates a wide range of soil conditions.

nigra Wellington
Morus

12 | Morus Alba | SF | 🍷

Lush emerald leaves, deeply lobed and veined, turning fiery gold in autumn. Spring sees a delicate mist of greenish-white flowers, adding a subtle fragrance to the air. But the true crown is the plump, inky-black berries, bursting with a juicy sweetness.

Pear Root Stock

Quince A – Semi Dwarf | Suitable for most soils and exposed sites. Ultimate height around 3.2m in ten years.

Beth
Pear

12 | Quince A | 3 | 🍏

This cherished pear variety, offers a delightful harvest of early-ripening, small to medium-sized fruits. Its smooth, yellowish-green skin, often tinged pink, cradles a sweet, juicy flesh. Beth's small, oval leaves, with a touch of gloss, provide a vibrant green backdrop for its delicate, fragrant, white flowers that grace the tree in spring. With its consistent cropping and exceptional flavour, Pear Beth has rightfully earned its reputation as a star among pear varieties.

Beurre Hardy
Pear

12 | Quince A | 3 | 🍏

A renowned pear prized for its exceptional flavour and delightful fragrance. Its large, oval leaves emerge in a vibrant green hue, adding a splash of freshness to the garden. In spring, the tree bursts into bloom with clusters of delicate white flowers, releasing a sweet, rose-like scent. As the season progresses, the pear bears an abundance of medium-sized, conical fruits that ripen to a rich yellow with a hint of russet red. The flesh is smooth, buttery, and exceptionally sweet.

Concorde (P)
Pear

12 | Quince A | 3 | 🍏

A remarkable pear tree that graces gardens with its abundant harvest of sweet, juicy fruits. Its oval leaves, a vibrant green hue create a refreshing ambiance. In the spring, the tree transforms into a cloud of delicate, white blossoms, exuding a captivating fragrance. As summer progresses, Concorde unveils its prized fruits, pear-shaped and adorned with a delicate blush of yellow upon ripening. The flesh within, a symphony of flavours, bursts with sweetness, reminiscent of vanilla and honey. A heavy cropping variety.

Conference
Pear

12 | Quince A | 3 | 🍏

A beloved variety of pear renowned for its sweet, refreshing flavour, is a sight to behold during its blooming season. White blossoms in mid-spring, adorning its branches with delicate petals that emit a subtle fragrance. As the season progresses, its oval-shaped leaves, initially a vibrant green, transform into a kaleidoscope of autumnal hues. Fruit a medium-sized to large pear, emerges in a greenish-brown hue, gradually ripening to a pale yellow as it matures. Its flesh, creamy white and firm when unripe, softens and becomes delightfully juicy and sweet.

Doyenne du Comice
Pear

12 | Quince A | 4 | 🍏

Best flavoured variety. A beloved dessert pear that produces succulent, prized fruits. In mid-spring, the tree bursts into a cloud of fragrant white blossoms, creating a mesmerizing spectacle. As summer progresses, the flowers give way to large, pear-shaped fruits, initially green and blushed with red, eventually ripening to a rich, golden hue. These delectable pears are known for their buttery texture, juicy flesh, and sweet, honeyed flavour. Ideal for pures.

William's Bon Chretien
Pear

12 | Quince A | 3 | 🍏

A popular pear variety known for its delightful flavour and versatility. Glossy green leaves, arranged in an elegant oval shape, provide a touch of freshness throughout the growing season. In spring, the tree bursts into bloom, adorned with delicate white flowers that emit a subtle fragrance. In mid-September, the tree yields large, conical pears, ranging in colour from golden yellow to reddish hues. The flesh of these pears is exceptionally sweet, juicy, and firm, making them ideal for both fresh consumption and preserving.

Plum Root Stock

Myrobalan – Semi Vigorous to Vigorous	Suitable for most soils and exposed sites. Self-supporting after a few years. Ultimate height around 4.5m in ten years.
Pixy – Semi Dwarfing	Good for restricted spaces, requires staking and suitable for loamy soil. Ultimate height 3m in ten years.

Czar
Plum

12 | Myrobalan | 3 | SF | 🍷 🍏

Cherished for its delectable fruit in late July. In spring, its branches burst forth with clusters of creamy white blossoms, filling the air with a sweet fragrance. Bears ovate to elliptic leaves, with a serrated margin, transitioning from vibrant green to shades of red and orange in autumn. The crowning jewel of this plum tree is its fruit, a generous yield of large, deep purple plums, boasting a firm flesh and a tangy sweetness.

Marjories Seedling
Plum

12 | Myrobalan | 5 | 🍷 🍏

A popular variety prized for providing a bountiful harvest of its delicious, large, sweet, juicy purple-black plums. This vigorous, upright tree bears a profusion of cup-shaped, white flowers in mid-to-late spring, attracting pollinators and adding a splash of colour to the garden. The leaves are ovate, glossy green, and turn a rich shade of bronze or orange in autumn.

Victoria
Plum

12 | Myrobalan (Standard and Half Standard) / Pixy | 3 | SF | 🍷 🍏

Undoubtedly the most popular variety, known for its delightful flavour and abundance of fruit. This deciduous tree bears oval-shaped leaves that turn from vibrant green to shades of red, orange, and yellow in autumn. Delicate white flowers adorn the tree in late spring. These flowers produce clusters of edible plums, ranging from pale red to deep red, with sweet, juicy flesh.

Quince Root Stock

Quince A – Semi Dwarfing | A mature height of 3–4m. Tolerates a wide range of soil conditions.

Vranja
Quince

12 | Quince A | 3 | SF | 🍷 🍏

A delightful and versatile tree that graces gardens with its enchanting beauty and culinary delights. Its large, glossy green leaves provide a lush backdrop for its dramatic displays. In late spring, the tree erupts into a symphony of pale pink to white flowers, filling the air with their irresistible fragrance. As summer progresses, these blossoms transform into large, pear-shaped fruits, initially pale green and finally maturing to a rich golden yellow. These quince fruits are not typically eaten fresh, but their exceptional flavour shines through in jams, jellies, and preserves, adding a touch of sweetness and warmth.

Ornamental Trees

With over 40 years of experience producing high quality ornamental trees for the UK retail market, we are offering a larger and improved range for 2026/27. Varieties will continue to be selected to satisfy the requirements of gardeners as they increasingly look for trees suitable for small to medium garden.

Our three-year trees are primarily produced from budding and grafting and are grown in a 10L or 12L rigid container.

With advanced husbandry techniques, our trees are produced to a full but compact specification with an overall height of 1.8m–2.1m with side branches retained where appropriate.

A

Gaulois Astier
Acacia dealbata

10 | M | ↑ 4m | ↔ 3m | E | 📅 Spring

Commonly referred to as Mimosa, an erect, evergreen tree with an open growth pattern. Its double pinnate mid-green leaves exhibit a captivating silvery luster. In January, young trees bear clusters of small, rounded, and intensely fragrant yellow flowers. It thrives best in a sheltered location, not hardy in northern areas of the UK.

Acer campestre
Acer campestre

12 | L | ↑ 6m | ↔ 4m | D | 📅 Autumn

Commonly known as Field Maple. It is characterised by its small, lobed leaves and compact, rounded crown, making it a popular choice. The bark is smooth and greyish, and the tree produces inconspicuous yellow-green flowers in spring, followed by winged seeds. During the autumn the leaves turn shades of gold and red.

Red Flamingo
Acer conspicuum

12 | M | ↑ 4m | ↔ 4m | D | 📅 AYR

A deciduous snakebark maple, exhibits a moderate growth rate, potentially reaching a height of approximately 6m. Its sturdy red stems mature with white striations, providing winter allure. Young leaves display a pink variegation, transitioning to a blend of green, dark pink, and white, creating an intricate pattern of mottling and splashes throughout the season.

Viper (P)
Acer davidii

10 | M | ↑ 3m | ↔ 2m | D | 📅 AYR

Commonly known as snakebark maple, is a captivating deciduous tree celebrated for its striking features. With its distinctive green leaves adorned with silver-white veins, it offers a unique visual appeal. The bark showcases a vibrant blend of green and white, resembling a snake's skin, adding a touch of elegance to any landscape. Compact and adaptable, 'Viper' is a superb choice for gardens seeking a stylish and manageable ornamental tree.

Crimson Sentry
Acer platanoides

12 | L | ↑ 6m | ↔ 3m | D | 📅 Summer

This columnar maple boasts stunning, deep crimson foliage that transforms from fiery red in spring to mesmerising purple summer hues. Autumn brings a vibrant display of copper and gold. Smooth grey bark adds subtle contrast, while inconspicuous yellow-green flowers appear in April, followed by winged fruits.

Crimson King
Acer platanoides

12 | L | ↑ 6m | ↔ 10m | D | 📅 Summer

Bears deeply lobed, fiery crimson leaves that hold their vibrant colour all summer long. In spring, clusters of buttery yellow flowers add a touch of sunshine before giving way to winged seeds, tinged with a hint of purple. This majestic, rounded tree brings a fiery encore with shades of orange and russet in autumn.

Drummondii
Acer platanoides

12 | L | ↑ 6m | ↔ 3m | D | 📅 Summer

A striking deciduous tree prized for its variegated foliage. Displaying a showy blend of green and cream, its leaves create a vibrant canopy. In spring, inconspicuous yellow-green flowers emerge.

Princeton Gold
Acer platanoides

12 | L | ↑ 6m | ↔ 4m | D | 📅 Summer

A stunning deciduous tree known for its vibrant golden-yellow foliage, especially during spring and early summer. This Norway Maple cultivar features a compact, upright habit. In late spring, inconspicuous yellow-green flowers emerge.

Brilliantissimum
Acer pseudoplatanus

12 | M | ↑ 3m | ↔ 3m | D | 📅 Spr/Sum | 🌿

A captivating deciduous tree known for its striking, variegated foliage. In spring, vibrant pink-red leaves emerge, gradually turning to a rich green in summer. Come autumn, the foliage transforms into shades of yellow and orange. This Acer showcases its unique beauty throughout the seasons, making it a delightful addition to any garden or landscape.

A

A

Simon Louis Freres
Acer pseudoplatanus

12 | M | ↑ 5m | ↔ 4m | D | Summer

A slow growing deciduous tree celebrated for its stunning features, with an elegant form and captivating seasonal transformations. The leaves are a stunning dusky pink in the spring, becoming green, cream and pink with blotches in the summer. Autumn brings with it golden and bronzed leaf colours creating a breathtaking spectacle. Flowering in spring, it showcases delicate blooms that add to its charm.

October Glory
Acer rubrum

12 | L | ↑ 6m | ↔ 4m | D | Autumn

A stunning deciduous tree known for its vibrant autumn display. Displaying red flowers in spring, it boasts a moderate growth rate and distinctive smooth grey bark. The stems exhibit a reddish hue, while the lush green foliage transforms into brilliant shades of red come autumn. Forms a dense round head and holds onto its leaves until quite late in the season.

Summer Red
Acer rubrum

12 | L | ↑ 5m | ↔ 3m | D | Summer

Acer rubrum 'Summer Red' stands out with its distinctive foliage, a captivating feature throughout the summer. The tree showcases crimson young leaves and growing tips, complemented by deep red stems. As autumn arrives, the colours intensify into a captivating blend of two-tone yellow and crimson, ensuring year-round visual appeal. This variety is a delightful choice, providing aesthetic charm in both the summer and autumn seasons.

L. JFS Armstrong Gold 'JFS-KW78' (P)
Acer rubrum

12 | M | ↑ 10m | ↔ 3m | D | Autumn

Acer rubrum 'Armstrong Gold' is a striking, upright selection of the red maple, valued for its refined form, vibrant seasonal colour, and adaptability to urban conditions. Foliage starts vivid green, turning to golden bright orange. This cultivar develops a strong, columnar habit with a narrow canopy, typically reaching 10m tall and 3m wide at maturity. Its tidy silhouette makes it an excellent choice for streetscapes, parking lots, or smaller residential landscapes where space is limited but vertical impact is desired.

L. JFS Redpointe 'Frank Jr' (P)
Acer rubrum

12 | L | ↑ 5m | ↔ 4m | D | Autumn

A standout specimen. Acer rubrum 'Redpointe' presents an elegant, pyramidal silhouette, offering a sophisticated appearance with its captivating autumnal hues. The leaves, initially dark green during summer, transition to a brilliant red in the autumn. Delicate flowers and winged seeds contribute subtle yet compelling details to this distinguished tree. A straight and dominant central leader results in strong branch angles that make it easier to grow.

NEW

L. JFS Red Sentinel 'WW Warren' (P)
Acer rubrum

12 | L | ↑ 12m | ↔ 2m | D | Autumn

True to its name, Red Sentinel® presents the best and brightest combination of columnar form and fiery red autumn colour imaginable. A dominant central leader and dense branching form a narrow column of medium green, anthracnose resistant leaves that cast cool shade. Perfectly suited for street tree plantings, parks and tight urban spaces.

Umbrella
Albizia julibrissin

12 | S | ↑ 4m | ↔ 4m | D | Summer

A compact deciduous tree or tall shrub with a broad, spreading crown, this specimen blooms profusely from a young age. Its rich green, ferny mimosa-like leaves, composed of numerous small leaflets, provide an elegant backdrop. In summer, clusters of fluffy, cherry-pink fragrant flowers with long stamens grace the crown, followed by long, narrow, pale brown pods that persist into winter, completing a vibrant seasonal display. Thrives best in a sheltered location, not hardy in northern areas of the UK.

Eveys Pride
Albizia julibrissin

12 | S | ↑ 4m | ↔ 4m | D | Summer

A captivating deciduous tree, or large shrub, featuring delicate, mimosa-like bipinnate leaves that emerge in a bronze-green hue, later changing to dark purple. With a moderate growth rate and a spreading, umbrella-like habit, this exotic-looking plant dazzles with fluffy, fragrant creamy-pink to purple flower heads in summer. Ideal for smaller gardens or in pots, 'Evy's Pride' adds grace and elegance with its unique foliage and striking blooms. Thrives best in a sheltered location, not hardy in northern areas of the UK.

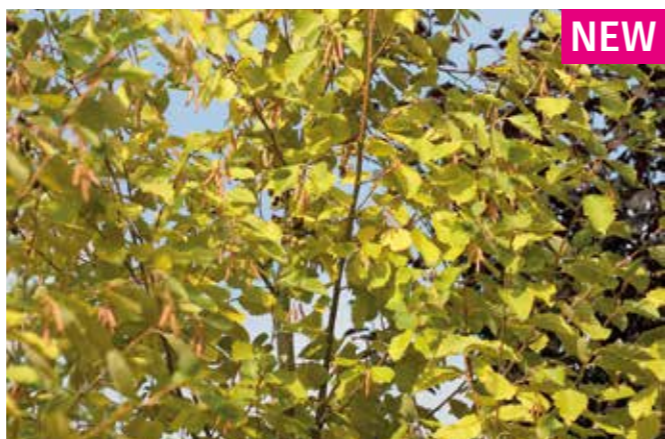

Summer Chocolate
Albizia julibrissin

12 | S | ↑ 3m | ↔ 4m | D | Summer

A captivating deciduous tree or large shrub with a mature domed crown. Its fern-like leaves, ranging in pinkish-bronze or purple hues, compose of delicate leaflets. Come summer, the tree exhibits terminal clusters of spherical flowerheads, adorned in shades of pinkish or yellow-green. This unique combination of features, from its distinctive foliage to its elegant blooms, makes 'Summer Chocolate' a standout addition.

A

Imperialis
Alnus glutinosa

12 | L | ↑ 10m | ↔ 6m | D | Sum/Aut

A captivating deciduous tree renowned for its stunning features. Boasting a conical outline and elegant habit, showcasing deeply pinnately lobed leaves. Bursting with maroon catkins in early spring, its rapid growth creates a majestic canopy. Its unique cork-like bark adds intrigue, transitioning from smooth to textured. The stems showcase a rich, deep purple hue, while the foliage unfolds in vibrant green, providing a lush contrast. In autumn, charming cones appear, completing the visual symphony.

Aurea
Alnus incana

12 | M | ↑ 6m | ↔ 4m | D | Spr/Sum/Aut

Golden Alder due to its wonderful golden hued leaves and bark, Alnus incana 'Aurea' is a hardy and resilient tree. It's ideal for difficult sites, tolerating damp or poor soils, some drought (once established) and wind exposure.

Amelanchier canadensis
Amelanchier canadensis

12 | M | ↑ 4m | ↔ 3m | D | Spring /Autumn

In spring, delicate white flowers bloom, giving way to edible berries. The smooth grey bark adds winter interest and the stems boast an attractive reddish hue. The foliage transitions from bronze to green and turns vibrant shades of red and orange in the autumn.

October Flame
Amelanchier canadensis

12 | M | ↑ 4m | ↔ 3m | D | Spring/Autumn

A captivating large shrub/small tree celebrated for its diverse attributes. In spring, delicate white blossoms adorn its branches, transitioning to vibrant green foliage. The bark showcases a distinctive smooth texture, while stems boast an appealing reddish hue. With a moderate growth rate, this Amelanchier variant yields striking red-orange fruits in October, providing a brilliant finale to a year of visual delight.

Ballerina
Amelanchier x grandiflora

12 | S | ↑ 4m | ↔ 3m | D | Spr/Aut

A stunning ornamental large shrub/small tree. In spring, it bursts into a profusion of delicate white blossoms. With a moderate growth rate, its elegant, slender branches showcase smooth, silver-gray bark. Foliage transitions from bronze in spring to green in summer, culminating in vibrant orange-red hues in autumn. 'Ballerina' also yields edible berries, adding a delightful touch to its aesthetic charm.

Robin Hill
Amelanchier x grandiflora

12 | S | ↑ 4m | ↔ 3m | D | Spr/Aut

A dense, upright small tree that gracefully spreads with age. In spring, pale pink flowers, emerging from pink buds and fading to white, adorn its branches. This ornamental marvel transitions from bronzy foliage in spring to vibrant green in summer, culminating in a breathtaking display of orange and red shades in autumn. Additionally, its moderate growth rate and smooth grey bark contribute to its overall allure, while summer brings forth dark purple berries.

Arbutus unedo
Arbutus unedo

10 | S | ↑ 3m | ↔ 2m | E | AYR

Also known as Strawberry Tree, is a small, evergreen, spreading tree with stunning autumnal features. The deep brown shedding bark creates an attractive contrast against the large dark green leathery leaves. Small, 'urn-shaped' white flowers and red strawberry-like fruits produce simultaneously in late autumn.

Fascination
Betula albosinensis

12 | L | ↑ 5m | ↔ 3m | D | AYR

A medium-sized tree boasting a pyramidal form with stiffly ascending branches. Its green leaves transform into a vibrant yellow in autumn, complementing the peeling coppery-pink bark that gracefully transitions to a pale pink-white. In spring, the tree unveils yellow-brown male catkins, reaching up to 10cm. With a moderate growth rate, this captivating birch offers year-round appeal, culminating in a spectacular springtime display.

Betula pendula
Betula pendula

12 | L | ↑ 5m | ↔ 2m | D | AYR

Commonly known as Silver Birch, boasts delicate, serrated leaves with a vibrant green hue. Its striking white bark peels in horizontal strips, revealing a smooth, silvery surface. In spring, pendulous catkins appear, adding charm to the landscape. The tree exudes a subtle fragrance and produces small, winged seeds.

Dalecarlica
Betula pendula

12 | L | ↑ 6m | ↔ 4m | D | Autumn

Betula pendula 'Dalecarlica', commonly known as the Swedish Birch, is a deciduous tree prized for its elegant form and distinctive features. In spring, it blooms with delicate catkins before its fresh green leaves emerge. Its bark, initially bronze, matures to creamy white, creating a striking contrast with the deep green foliage. In autumn, the leaves turn a warm golden hue, adding seasonal charm. The tree produces small, winged seeds in late summer.

Fuzzy Feathers
Betula pendula

10 | S | ↑ 4m | ↔ 3m | D | Summer

Betula pendula 'Fuzzy Feathers' is an elegant and distinctive dwarf cultivar of silver birch, valued for its finely divided purple foliage and graceful overall form. Unlike the typical Betula pendula, this variety features delicately cut leaves that create a soft, almost fern-like texture, giving the tree a light and airy presence in the garden.

Golden Beauty
Betula pendula

12 | M | ↑ 6m | ↔ 3m | D | Sum/Aut

A stunning deciduous tree renowned for its vibrant features. In spring, delicate catkins adorn the branches, creating a picturesque display. With a moderate growth rate, it boasts striking golden-yellow foliage that persists throughout the summer. The distinctive white bark adds winter interest, while its stems exhibit a reddish hue. This birch variety culminates in autumn with small, inconspicuous fruit.

B

Golden Obelisk
Betula pendula

12 | M | ↑ 5m | ↔ 3m | D | 📅 Sum/Aut | 🌳

A stunning tree, captivates with its elegant form and vibrant features. In spring, delicate catkins from the striking golden stems which boast unique white bark with dark lines, adding visual intrigue year-round. Foliage transitions from lime green in spring to golden yellow in autumn, and small cone-like fruits add a final touch to this enchanting ornamental tree.

Royal Frost
Betula pendula

12 | M | ↑ 4m | ↔ 3m | D | 📅 Summer/Autumn

A captivating deciduous tree renowned for its stunning features. Boasting a fast growth rate, it showcases crimson bark that peels to reveal a creamier layer. The stems exhibit a rich burgundy hue, harmonising with vibrant purple foliage that transforms to golden-yellow in autumn. Flowering in spring, the tree produces inconspicuous catkins, while its small, winged fruits add ornamental charm.

Youngii
Betula pendula

12 | M | ↑ 4m | ↔ 4m | D | 📅 AYR | 🌳

This captivating tree cascades its branches to the ground, forming a mushroom-shaped canopy of fresh diamond-shaped, glossy green leaves. In spring, delicate yellowish-green catkins add a touch of charm, followed by a golden autumn glow. While it rarely produces fruit, its smooth white bark with dark fissures steals the show in winter.

Snow Queen
Betula utilis

12 | M | ↑ 6m | ↔ 4m | D | 📅 AYR

An elegant deciduous tree known for its stunning features. Flowering in spring, it boasts a moderate growth rate. The chalk-white bark exfoliates, revealing a fresh layer beneath. Its stems display a striking copper hue, while the foliage unfolds in vibrant green, turning golden in autumn. Inconspicuous catkins appear in late spring, maturing into small winged seeds by autumn.

Grayswood Ghost
Betula utilis

12 | L | ↑ 6m | ↔ 4m | D | 📅 AYR

An enchanting deciduous tree renowned for its striking features. In spring, delicate catkins dangle, adding ethereal charm. With a moderate growth rate, it matures into an elegant specimen. The chalk-white bark exudes a ghostly allure, contrasting beautifully with dark stems. Foliage transitions from green to gold in autumn, culminating in a spectacular display. No fruits, but its captivating aesthetics make it a standout in any landscape.

var. jacquemontii
Betula utilis

12 | L | ↑ 6m | ↔ 5m | D | 📅 AYR

Commonly known as the Himalayan birch, is a striking deciduous tree prized for its elegant beauty. With a rapid growth rate, it boasts peeling, chalk-white bark that illuminates the landscape. In spring, it graces gardens with pendulous catkins, while its serrated green leaves turn golden in autumn. Small, inconspicuous fruit appears in summer. This birch variety brings year-round interest and a touch of grace to any garden.

Trewithen Blue
Ceanothus arboreus

12 | M | ↑ 6m | ↔ 5m | E | 📅 AYR

A captivating evergreen shrub/small tree renowned for its stunning blue flowers that bloom in late spring to early summer. Its stems exhibit a reddish hue, while the glossy dark green foliage enhances garden aesthetics. Small, inconspicuous fruits follow the blooms, completing this delightful package for a vibrant garden display.

Carpinus betulus
Carpinus betulus

12 | L | ↑ 6m | ↔ 3m | D | 📅 Autumn | 🇬🇧

Commonly known as Hornbeam, is a deciduous tree with a moderate growth rate. In spring, inconspicuous flowers appear, followed by distinctive serrated dark green leaves. The smooth, grey bark develops a muscular appearance with age. Its stems boast a unique blend of green and grey hues. In autumn, the tree showcases pendulous clusters of winged nutlets, adding to its ornamental appeal.

Fastigiata
Carpinus betulus

12 | L | ↑ 4m | ↔ 1m | D | 📅 Autumn | 🌳

Commonly known as the Upright Hornbeam. Its distinctive columnar growth habit and dense branching create a stately presence. In spring, inconspicuous flowers appear, followed by vibrant green foliage that turns a rich golden-yellow in autumn. The smooth, grey bark adds winter interest.

B

C

Ace of Spades (P)
Cercis canadensis

12 | S | ↑ 3m | ↔ 3m | D | AYR | 🗑️

A captivating ornamental tree prized for its unique features. Blooming in spring with rosy-pink flowers, it boasts a moderate growth rate. Its bark is smooth and dark, complementing the distinctive deep-purple stems. The heart-shaped leaves emerge burgundy, maturing to glossy green. In autumn, it produces slender seedpods. 'Ace of Spades' is a visually stunning addition to any landscape.

NEW

Alley Cat
Cercis canadensis

12 | M | ↑ 5m | ↔ 6m | D | Spr/Sum | 🗑️

For spring and summer interest, look no further than Cercis canadensis 'Alley Cat'. Pea-like, pink flowers in spring are followed by heart-shaped variegated leaves. Starting with green and hints of pink, they take on striking green and white patterns.

NEW

Hearts a Fire (P)
Cercis canadensis

12 | S | ↑ 3m | ↔ 4m | D | Spr/Sum | 🗑️

A striking ornamental tree, this American redbud produces clusters of vivid pink-red flowers directly on its bare branches in early spring, creating a dramatic display before the foliage emerges. The new leaves unfurl in shades of deep burgundy and scarlet, shifting through fiery tones of orange, gold, and peach as the season progresses, before maturing to rich greendal for compact gardens, courtyards, or as a standout specimen in mixed planting schemes. With its long-lasting seasonal display and manageable size, it brings bold impact without overwhelming the space.

NEW

Hearts of Gold (P)
Cercis canadensis

12 | S | ↑ 3m | ↔ 4m | D | Spr/Sum | 🗑️

The delightful Cercis canadensis Hearts of Gold tree boasts purple-red, pea-like flowers on bare branches in the spring before beautiful crisp yellow foliage unfurls. The heart shaped foliage turns from translucent yellow to a yellow-green in summer. Leaves at the centre of the Hearts of Gold tree are somewhat darker, creating a striking gradient of colour from mid-green to bright yellow at the edge of the canopy. In autumn, it turns shades of golden yellow.

Carolina Sweetheart (P)
Cercis canadensis

12 | S | ↑ 3m | ↔ 3m | D | AYR | 🗑️

A captivating ornamental tree renowned for its vibrant features. Blooming in spring, it boasts heart-shaped leaves with a striking variegation of burgundy and pink. This deciduous beauty exhibits a moderate growth rate, showcasing smooth, grey bark and distinctive branching. In autumn, the foliage transitions to golden-yellow, complementing the pendulous clusters of reddish-purple seed pods. Carolina Sweetheart adds year-round visual interest to gardens with its unique combination of colours and textures.

Eternal Flame (P)
Cercis canadensis

12 | S | ↑ 3m | ↔ 3m | D | AYR | 🗑️

Ignites your garden with year-round charm. The heart-shaped leaves unfurl in a rich and glossy red hue, transforming as they mature throughout the season. The colours evolve from deep wine red to scarlet, transitioning through shades of orange, and ultimately culminating in a vibrant yellow. Each stem showcases foliage in all these colours simultaneously. In spring, the branches burst into a cascade of magenta-pink flowers, creating a mesmerizing spectacle that lasts for weeks. These vibrant blooms are fragrant.

NEW

Pink Pom Pom
Cercis canadensis

12 | M | ↑ 5m | ↔ 4m | D | Spr/Sum | 🗑️

Cercis canadensis 'Pink Pom Pom' is an exceptional new redbud cultivar. Wonderful pink double flowers sit on the end of pretty pink stalks and are reminiscent of pom poms dangling on strings. The glossy green foliage is heart shaped and a wonderful highlight in itself.

Forest Pansy
Cercis canadensis

12 | M | ↑ 3m | ↔ 3m | D | AYR

A captivating ornamental tree renowned for its stunning features. In spring, it bursts into a profusion of rosy-pink blossoms before vibrant heart-shaped leaves emerge, showcasing rich burgundy hues. The tree's growth is moderate, with distinctive maroon bark adding year-round interest. 'Forest Pansy' delights with its unique blend of colourful foliage.

Avondale
Cercis chinensis

12 | S | ↑ 2m | ↔ 2m | D | AYR | 🗑️

A captivating ornamental tree known for its vibrant display. Blooming in spring, it boasts striking rose-purple flowers. With a moderate growth rate, its bark exhibits an appealing smooth texture. Distinctive heart-shaped leaves emerge in a rich green hue, turning yellow in autumn. The stems showcase an attractive reddish tint. This Chinese redbud variety produces flattened seed pods, adding visual interest to the landscape year-round.

Shirobana
Cercis chinensis

12 | S | ↑ 3m | ↔ 2m | D | AYR | 🗑️

Commonly known as the Chinese Redbud, captivates with its profusion of rosy-pink and white blossoms in spring. This deciduous tree boasts a moderate growth rate and distinctive mottled bark. Its stems exhibit an attractive reddish hue, complementing heart-shaped leaves that transition from burgundy to green. In autumn, the foliage transforms into vibrant shades of gold. Intriguing seed pods follow the blooms, enhancing the tree's year-round appeal.

NEW

AVAILABLE FROM AUTUMN 2027

Blue Lagoon (P)
Cercis griffithii

12 | S | ↑ 2m | ↔ 2m | D | Spr/Sum

Cercis Blue Lagoon is a beautiful small tree that offers a mix of colour and form. Its heart-shaped leaves emerge in a striking blue-grey tone. Young branches hold a deep red colour that stands out against the foliage. Pink flowers in spring add a soft lift to the display and make sure you can enjoy Blue Lagoon throughout the year!

Bodnant
Cercis siliquastrum

12 | S | ↑ 4m | ↔ 2m | D | AYR

A bushy, deciduous small tree with particularly dark purple flowers all along its bare twigs in mid spring. The unusual heart shaped leaves are bronze when young, turning fresh green, finally to butter yellow in autumn.

NEW

Ruby Falls (P)
Cercis siliquastrum

12 | S | ↑ 2m | ↔ 2m | D | Spr/Sum

Cercis canadensis 'Ruby Falls' is a compact weeping redbud variety favoured for its colourful heart shaped foliage. Before the leaves appear, small purple flowers erupt all over the bare stems in early spring. The cordate leaves emerge a dark ruby red colour and turn dark burgundy during the summer.

White Swan
Cercis siliquastrum

12 | S | ↑ 3m | ↔ 3m | D | AYR

A bushy, deciduous small tree with milky white flowers are borne all along its bare twigs in mid spring. The unusual heart shaped leaves are bronze when young, turning fresh green, finally to butter yellow in autumn.

NEW

AVAILABLE FROM AUTUMN 2027

Flower Tower (ZuiB1'PBR) (P)
Cornus kousa

10 | S | ↑ 3m | ↔ 1m | D | Sum/Aut

Cornus kousa 'Flower Tower' is a specialized variety of Chinese dogwood celebrated for its distinct, narrow, columnar growth habit. Unlike traditional dogwoods that spread widely, this cultivar grows vertically, making it an excellent 'architectural' choice for small urban gardens or narrow spaces.

Rothschildianus
Cotoneaster salicifolius

12 | M | ↑ 4m | ↔ 2m | SE | AYR

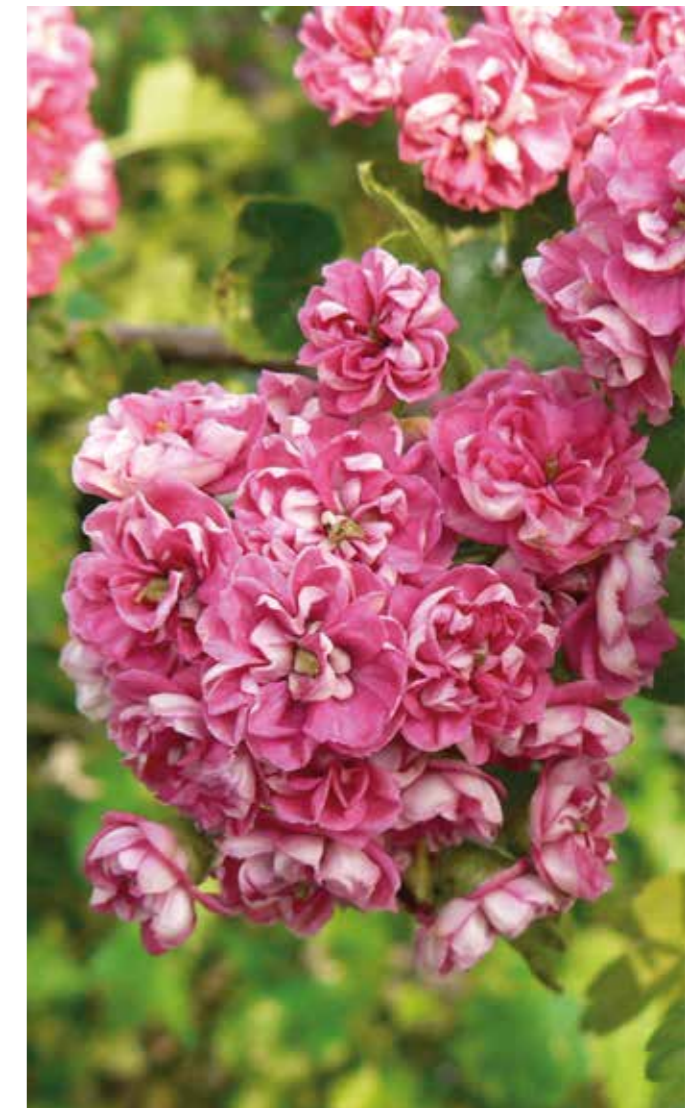

A semi-evergreen shrub, boasts glossy dark green elliptical leaves, turning vibrant red in autumn. Its exfoliating bark reveals hues of brown and orange. In late spring, clusters of small white flowers emit a subtle fragrance. Come autumn, bright yellow berries adorn its arching branches, adding ornamental charm.

Cornubia
Cotoneaster frigidus

12 | M | ↑ 5m | ↔ 3m | SE | AYR

A versatile semi evergreen large shrub/small tree, delights with its cascading branches and vibrant features. Blooming in late spring to early summer, it boasts small white flowers. With a moderate growth rate, its bark exudes warm hues, complementing the glossy green foliage. Come autumn, vivid red berries add a final burst of colour.

Paul's Scarlet
Crataegus laevigata

12 | M | ↑ 3m | ↔ 2m | D | Spring/Autumn

Crataegus Paul's Scarlet, a captivating ornamental tree, bursts into a profusion of crimson double flowers in late spring. With a moderate growth rate, its silver-grey bark complements the vibrant green foliage. The stems exhibit a reddish hue, adding to its visual allure. Autumn unveils a display of small, persistent red fruits.

C

E

Plena
Crataegus laevigata
12 | M | ↑ 6m | ↔ 5m | D | Spring/Autumn
Crataegus Plena, commonly known as the Double Hawthorn. With its abundant double-petaled white flowers in late spring, attracting pollinators. This deciduous tree boasts a moderate growth rate. Its grey-brown bark, reddish stems, vibrant green foliage, and small red fruits contribute to year-round visual appeal.

Rosea Flore Pleno
Crataegus laevigata
12 | M | ↑ 3m | ↔ 2m | D | Spring/Autumn
Commonly known as Double Pink Hawthorn, delights with its double-petaled, rosy-pink blossoms in late spring. This deciduous tree boasts a moderate growth rate, adorned with grey-brown bark and vibrant green foliage turning red in autumn. Its stems are brown, and the tree bears small, red fruits. Ideal for gardens with difficult conditions as it will grow in almost any position including, coastal, exposed, polluted or damp sites.

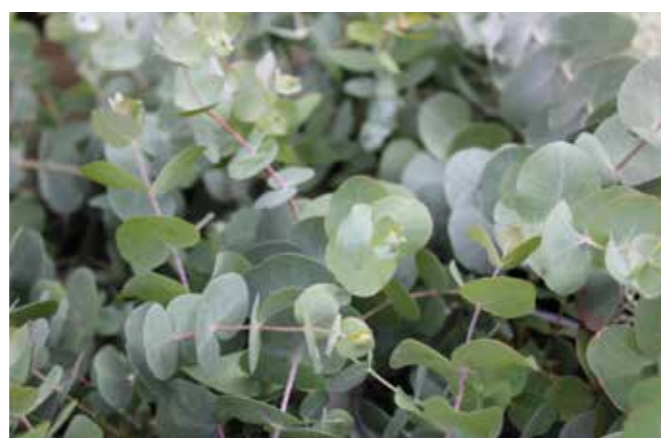

Prunifolia
Crataegus persimilis
12 | M | ↑ 5m | ↔ 4m | D | Spring/Autumn
In late spring the tree comes alive with clusters of small white flowers. This deciduous tree boasts a moderate growth rate with distinctive orange-brown bark. Its stems exhibit a reddish tint, complementing the rich green foliage that transitions to vibrant autumn hues. Abundant red berries adorn the tree in autumn, adding ornamental charm.

Crimson Cloud
Crataegus x media
12 | S | ↑ 3m | ↔ 2m | D | Spring/Autumn
Crataegus Crimson Cloud, a stunning deciduous tree, blooms vibrant red flowers in late spring. With a moderate growth rate, its smooth grey bark contrasts elegantly with dark green foliage, turning deep red in autumn. The tree bears small red fruits, adding a final touch to its year-round visual appeal.

Cytisus battandieri
Cytisus battandieri
12 | M | ↑ 3m | ↔ 2m | SE | Summer
Also known as Pineapple Broom, is a captivating shrub/small tree with silver-green leaves that emit a sweet pineapple fragrance. In late spring to early summer, it boasts vibrant yellow, pea-like flowers. With a moderate growth rate, its peeling cinnamon-coloured bark complements the striking green stems. The plant yields decorative brown pods. Thrives best in a sheltered location, not hardy in northern areas of the UK.

Eucalyptus gunnii
Eucalyptus gunnii
10 | L | ↑ 6m | ↔ 4m | E | AYR
A fast-growing evergreen tree. Its striking blue-grey foliage and aromatic scent make it a popular choice in gardens. In summer, small creamy-white flowers bloom, attracting bees. The smooth bark peels in ribbons, revealing a contrasting cream and green trunk.

Azura (P)
Eucalyptus gunnii
12 | L | ↑ 5m | ↔ 4m | E | AYR
This captivating gem, unlike its fast-growing cousins, stays compact and bushy, offering year-round charm. Rounded Silvery-blue leaves adorn the silvery blue branches, while smooth pewter bark adds subtle texture. Spring welcomes clusters of fragrant white flowers, releasing a hint of eucalyptus. Its slow-paced growth and tolerance for shade and cold make it perfect for patios and smaller gardens.

Fagus sylvatica
Fagus sylvatica
12 | L | ↑ 5m | ↔ 3m | D | Autumn
Commonly known as Beech. In spring, it boasts pendulous catkins with inconspicuous flowers. Its lush, ovate leaves emerge fresh green, transforming into a rich copper hue in autumn. The smooth, silvery-grey bark complements the tree's moderate growth rate.

Red Cascade
Euonymus europaeus
12 | S | ↑ 1.5m | ↔ 1m | D | Summer
A stunning deciduous large shrub or small tree, bursts into bloom in late spring, showcasing clusters of tiny, vibrant red flowers. Its growth is moderate, adorned with distinctive cork-like bark, while the stems boast a reddish hue. Oval green leaves turn a rich red in autumn, complemented by striking pink-orange fruit capsules.

Snow White
Exochorda serratifolia
12 | S | ↑ 4m | ↔ 3m | D | Spring
A stunning deciduous large shrub or small tree, renowned for its profuse spring blossoms. During late spring to early summer, the plant bursts into a cascade of pure white flowers. With a moderate growth rate, it unveils serrated green foliage, while its bark remains smooth and brown. The stems exhibit a reddish hue, adding to the plant's allure. Small, inconspicuous fruit capsules follow the blossoms.

Purpurea
Fagus sylvatica
12 | L | ↑ 5m | ↔ 3m | D | AYR
Commonly known as Purple Beech. In spring, its burgundy foliage emerges, complemented by inconspicuous flowers. With a moderate growth rate, its smooth grey bark matures gracefully. The stems exhibit a rich purple hue, while the foliage showcases a captivating mix of deep purple. Come autumn, the tree produces small beech nuts, adding to its seasonal allure.

E

F

Ginkgo biloba
Ginkgo biloba

10 | L | ↑ 3m | ↔ 2m | D | AYR

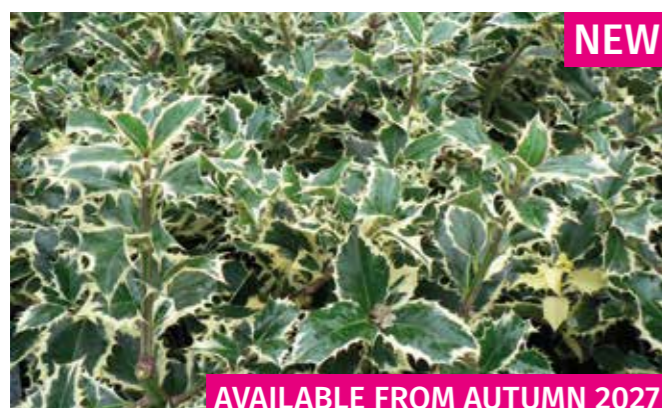

Dating back 270 million years and surprisingly a conifer tree(!) blooms inconspicuous yellow-green flowers in spring. With a moderate growth rate, its distinctive fan-shaped leaves turn vibrant yellow in autumn. The bark is greyish-brown, while the stems exhibit a light tan hue. Ginkgo's unique fruit, resembling small apricots, appears in autumn.

Sunburst
Gleditsia triacanthos

12 | M | ↑ 3m | ↔ 2m | D | Summer

Commonly known as Sunburst Honeylocust, a deciduous tree celebrated for its vibrant appearance. In late spring, it boasts fragrant greenish-yellow flowers. This fast-growing tree showcases distinctive golden-yellow, fern-like foliage, complemented by smooth, greenish-brown bark. Its stems exhibit a warm, reddish hue, while the tree bears long, twisting seed pods in autumn. Thrives best in a sheltered location, not hardy in northern areas of the UK.

Aureomarginata
Ilex aquifolium

10 | M | ↑ 4m | ↔ 3m | E | AYR

Ilex aquifolium 'Aureomarginata', commonly known as Golden-Margined Holly or Variegated English Holly, is a slow-growing small tree celebrated for its striking yellow-edged foliage and classic winter berries, glossy, dark-green leathery leaves with distinctive creamy-yellow to bright gold margins. Younger stems often display a unique purple hue.

Snow White (P)
Hoheria sexstylosa

12 | S | ↑ 3m | ↔ 1.5m | E | AYR

Bred by the late Graham Hutchins. Will thrive in the south and even further north if given a sheltered position against a wall. An elegant evergreen shrub/small tree of pyramidal shape renowned for its white cherry-like flowers in June. With a slow growth rate, its slender stems boast attractive silver-grey bark. The lance-shaped green leaves add vibrancy.

Golden King
Ilex x altaclerensis

10 | M | ↑ 4m | ↔ 3m | E | AYR

Ilex x altaclerensis 'Golden King' is a popular evergreen holly cultivar prized for its striking variegated foliage. Despite its masculine name, 'Golden King' is actually a female variety that produces decorative red berries if a male pollinator is planted nearby, the glossy green leaves with broad golden-yellow margins are largely spineless, making them easier to handle than many other hollies.

Juglans regia
Juglans regia

12 | M | ↑ 3m | ↔ 3m | D | Spring

Also known as the Common Walnut. Its large, dark green leaves, divided into 5-9 leaflets, provide a lush canopy throughout the growing season. In late spring, the tree bursts into a display of yellowish green flowers, arranged in drooping catkins. When autumn arrives, the leaves transform into vibrant shades of amber, gold, and red, creating a mesmerizing spectacle. As the season progresses, the tree produces edible walnuts, encased in a green husks.

Yellow Rocket
Laburnum x anagyroides

12 | M | ↑ 4m | ↔ 3m | D | Spr/Sum

This distinctly columnar tree with vibrant yellow, scented flowers hang in pendulous racemes from Laburnum x anagyroides 'Yellow Rocket' in May to early June. Referred to as a Golden Chain tree for this stunning display, the flowers also attract bees and butterflies. Deciduous foliage is green and pinnate. Seeds can be harmful if eaten.

JFS Firehouse Sweetgum 'JFS KW1LS' (P)
Liquidambar

12 | L | ↑ 12m | ↔ 4m | D | Autumn

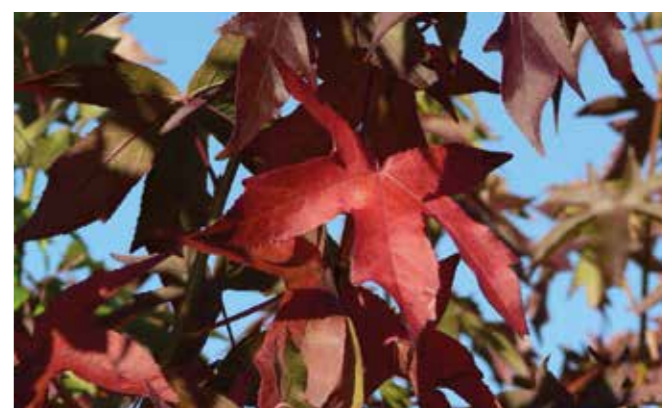

A standout cultivar of the American Sweetgum introduced by J. Frank Schmidt & Son Co. It is specifically prized for its exceptionally consistent bright red autumn colour, early defoliation, and improved storm resistance compared to the parent species, making it suitable for street planting or as a structured specimen in a residential landscape.

Lane Roberts
Liquidambar styraciflua

12 | L | ↑ 4m | ↔ 3m | D | Autumn

This stunner boasts glossy green, star-shaped leaves that transform into a fiery inferno of reds, oranges, and purples come autumn. In spring, inconspicuous greenish-yellow flowers add a subtle touch, followed by spiky brown seed pods that persist through winter.

Worplesdon
Liquidambar styraciflua

12 | L | ↑ 4m | ↔ 3m | D | Autumn

A fiery autumn spectacle! This majestic tree ignites your garden with its star-shaped, glossy green leaves that transform into a blaze of crimson, orange, and yellow come autumn. In spring, subtle greenish-yellow flowers add a touch of fragrance to the air. Look for spiky, round fruit in autumn.

Liriodendron tulipifera
Liriodendron tulipifera

12 | L | ↑ 5m | ↔ 3m | D | 📅 Summer

Commonly known as the tulip tree. Its name derives from its iconic tulip-shaped flowers that bloom in late spring, adorned with vibrant yellow petals and an orange band at the base. The leaves, resembling a unique star-shaped pattern, emerge in a fresh green hue and transition into a breathtaking display of golden hues during autumn. The bark, a blend of smooth grey and furrowed brown tones, adds to the tree's captivating aesthetic.

JFS Emerald City Tulip Tree 'JFS-Oz' (P)
Liriodendron tulipifera

12 | L | ↑ 12m | ↔ 4m | D | 📅 Spr/Sum | 🌱

A refined cultivar of our familiar native tulip tree, this uniform growing selection is straighter and more upright, with a dominant central leader and deeper green, slightly glossy foliage, which turns yellow with red tones in the autumn.

Star Wars
Magnolia

12 | M | ↑ 6m | ↔ 3m | D | 📅 Spring | 🌱

An outstanding and award-winning Magnolia, ideal as a specimen plant which will reach up to 6m in height and 3m spread over 20 years or so. Throughout April and May Magnolia 'Star Wars' produces large, fragrant, rosy-pink blooms on semi-bare stems. Blooms waft their light, sweet and fruity fragrance across the spring garden. Foliage is stunning too, with large glossy leaves appearing shortly after the blooms appear, right through until autumn. In maturity this large shrub or tree has a pyramid shape adding height and upward movement to your planting.

Zofia (P)
Magnolia

10 | M | ↑ 3m | ↔ 1.5m | D | 📅 Spring

A Tulip Magnolia, boasting icy-white flowers with a pink base and delicate pink stripes. These blooms stand out against the backdrop of dark, glossy green leaves. With its upright, narrow growth habit, it's perfect for smaller garden spaces, adding elegance and charm.

Flower Tower Kricco (P)
Magnolia

10 | M | ↑ 4m | ↔ 3m | D | 📅 Spring

A captivating deciduous tree with glossy, elliptical leaves, boasting a rich green hue. Its smooth, greyish-brown bark exudes understated elegance. In spring, Romuald graces the landscape with large, fragrant, pinkish-white blossoms. The tree bears cone-like fruits and forms a pleasingly rounded silhouette.

Heaven Scent
Magnolia

10 | L | ↑ 4m | ↔ 3m | D | 📅 Spring

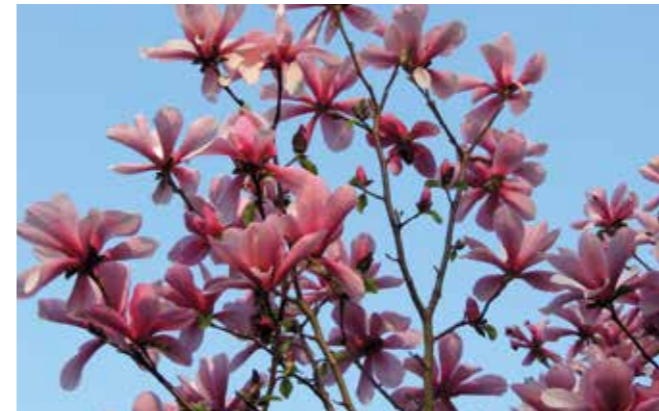

A vigorous tree with dark foliage. Cup-shaped flowers can reach 10cm in length, with nine rosy pink petals, soon fading to pale pink with a magenta central stripe on the outside.

Magnolia soulangeana
Magnolia soulangeana

12 | M | ↑ 6m | ↔ 4m | D | 📅 Spr/Sum | 🌱

This stunning Magnolia, evocative of urban gardens in England, has large, white, purple-tinted flowers which appear in April and May. Like most Magnolias, this tree produces flowers before foliage and tends to be an early-flowering tree. The leaves are bright green, turning to golden yellow and brown in the autumn time.

Galaxy
Magnolia denudata

10 | M | ↑ 4m | ↔ 3m | D | 📅 Spring

A captivating deciduous tree renowned for its elegant, saucer-shaped flowers, deep red-purple buds open to slightly fragrant flowers 20cm in width, with 12 petals light red-purple outside, paler rose within, in mid-spring before the leaves open. The elliptical, glossy green leaves complement the smooth grey bark.

Magnolia grandiflora
Magnolia grandiflora

10 | M | ↑ 4m | ↔ 3m | E | 📅 AYR

Boasts evergreen, leathery leaves with a glossy dark green hue, creating year-round appeal. The bark is smooth and brown, ageing to a greyish colour. Its large, fragrant white flowers bloom in late spring to early summer, followed by cone-like fruit in a striking red-brown. This majestic tree showcases a pyramidal or conical shape.

Alta (P)
Magnolia grandiflora

12 | M | ↑ 4m | ↔ 1.5m | E | 📅 Sum/Aut | 🌱

Evergreen fastigate small tree about 6m in height with glossy dark green leaves, felty brown beneath. Large, scented, open cup-shaped flowers are produced from summer through to autumn.

Yellow Bird
Magnolia x brooklynsensis

10 | L | ↑ 4m | ↔ 3m | E | 📅 Spring

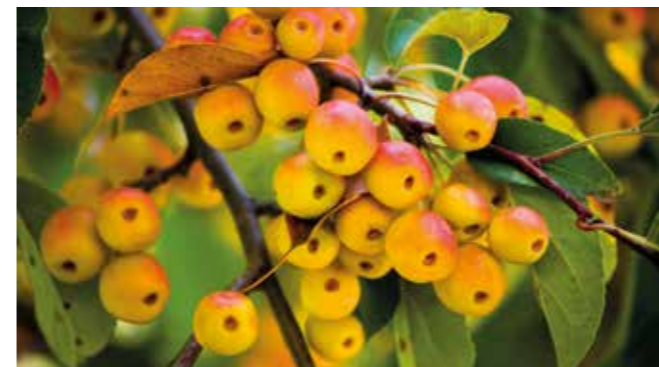

In our opinion the best lemon yellow flower colour of all the yellow hybrid Magnolias. The flowers, although not the largest, have a neat goblet shape and bloom in late spring just as the leaves emerge.

Black Tulip (P)
Magnolia x soulangeana

10 | M | ↑ 3m | ↔ 2m | E | 📅 Spring

Unveils its magic in spring, where large, tulip-shaped flowers unfold in a captivating blend of deepest purple and burgundy. Their sweet, citrusy fragrance fills the air, attracting pollinators and delighting your senses. Bears lustrous green leaves throughout summer, turning a warm bronze-tinted yellow in autumn. The smooth, grey bark adds textural interest in winter.

Butterball
Malus

12 | S | ↑ 3m | ↔ 2m | D | 📅 Spring/Autumn

A delightful crab apple tree, with a captivating display of beauty throughout the year. In spring, it bursts into a symphony of white and pink blossoms, creating a floral spectacle that fills the air with a sweet fragrance. In autumn, the leaves paint the landscape in a kaleidoscope of fiery reds, oranges, and yellows. In late summer the tree is adorned with abundant clusters of round, golden yellow fruits, adding a touch of visual delight. Good for making crab apple jelly.

NEW

Cherry Moon
Malus

12 | M | ↑ 5m | ↔ 3m | D | 📅 Sum/Aut | 🌿

Malus transitoria Cherry Moon – formerly 'Roundabarrow Ruby' is a small, deciduous ornamental crab apple tree. It is a relatively new cultivar launched by Pan Global Plants, raised from a seedling of Malus transitoria that displayed unique dark red colouring. Features elegant, maple-like leaves with three lobes. New growth emerges deep red, transitioning to green heavily suffused with red as it matures. In autumn, the leaves turn a vibrant red-orange.

Genie (P)
Magnolia x soulangeana

10 | S | ↑ 3m | ↔ 2m | D | 📅 Spring

Lightly scented tulip-shaped flowers in late spring. The flowers start as a blackish-red bud and open to display a rich maroon colour. They are frequently followed by a second round of flower in mid summer.

Aros (P)
Malus

12 | S | ↑ 3m | ↔ 2m | D | 📅 AYR | 🍷

A charming dwarf crab apple tree that adds a touch of elegance to any garden. Its small, dark purple-black leaves provide a striking backdrop for its clusters of vibrant purple-pink flowers in spring. The flowers give way to small, deep red-maroon crab apples that persist into winter, providing a splash of colour even when the leaves are gone. Malus 'Aros' is a slow-growing variety, making it ideal for smaller gardens or patio containers.

Direktoer Moerland
Malus

12 | M | ↑ 3m | ↔ 2m | D | 📅 Spring/Autumn

A small, rounded deciduous tree that adds a splash of vibrant colour to any garden. Its oval leaves emerge in a deep red hue, maturing to a rich coppery bronze as the summer progresses. In spring, the tree bursts into a stunning display of wine-red flowers, creating a captivating spectacle against the backdrop of its colourful foliage. The fruit, small and dark red in colour, ripens in late summer and provides a valuable source of food for birds. A disease resistant variety, very similar to Profusion but slightly more vigorous.

Evereste
Malus

12 | M | ↑ 5m | ↔ 4m | D | 📅 Spring/Autumn

A compact, pyramidal-shaped crabapple tree that bursts into a dazzling display of fragrant white blossoms in spring. The flowers, which emerge from reddish-purple buds, transform into a cloud of delicate petals, creating a mesmerizing spectacle against the backdrop of its glossy green foliage. As summer progresses, the foliage transitions into shades of golden yellow, adding a touch of autumnal warmth to the garden. In autumn, the tree adorns itself with clusters of petite, red-flushed orange-yellow fruits that provide a vibrant contrast to the changing leaves.

Golden Hornet
Malus
12 | M | ↑ 3m | ↔ 2m | D | Spring/Autumn
Its oval, glossy green leaves turn a brilliant golden yellow in autumn, creating a captivating display of colour. In late spring, the tree bursts into bloom with masses of stunning pink-flushed white flowers, providing a delightful fragrance that fills the air with a sweet aroma. These flowers are followed by a profusion of small, golden-yellow crabapples that adorn the branches throughout the winter.

Gorgeous
Malus
12 | M | ↑ 2m | ↔ 2m | D | Spring/Autumn
A true gem of the crab apple family, an oval-shaped tree enveloped in a mesmerizing symphony of spring and autumn splendour. Delicate, star-shaped white blooms burst from pink buds in early spring. As the season shifts, the foliage transforms into a vibrant tapestry of crimson and orange hues, adding warmth and vibrancy to the autumnal landscape. The tree bears small, orange-red fruits that persist throughout the winter months, providing a touch of colour and interest even in the colder seasons.

John Downie
Malus
12 | M | ↑ 3m | ↔ 2m | D | Spring/Autumn
A widely popular ornamental crab apple tree, adorns gardens with its eye-catching beauty throughout the year. Its glossy green leaves, emerging in spring, transform into a stunning display of fiery hues in autumn. In mid-spring, the tree bursts into a cloud of fragrant white blossoms. As summer progresses, the tree produces large scarlet red fruits that persist well into winter, adding a touch of colour to the bare branches. These fruits are often used for making jelly.

Neville Copeman
Malus
12 | M | ↑ 3m | ↔ 1m | D | Spring/Autumn
Known as the Purple Crab Apple. Its oval-shaped crown is adorned with vibrant purple-tinged foliage. In spring, the tree transforms into a riot of colour as it bursts into bloom with clusters of deep pink, bell-shaped flowers, which emit a delightful fragrance. In autumn, the tree showcases its final flourish with a display of fiery red, orange, and yellow leaves followed by a mass of large conical orange-red fruits.

JFS Raspberry Spear 'JFS KW213MX' (P)
Malus
10 | M | ↑ 6m | ↔ 2m | D | Sum/Aut | 🌿
Deep pink buds open to bright magenta flowers on this tightly columnar crabapple, ideal for small gardens or patio pots. Clean and disease-free summer foliage holds its dark purple colour; bronzing on the older leaves in late summer and early autumn, when orange tints appear. Purple-red fruits ripen to deep bright red and persist into late autumn or early winter.

Profusion
Malus
12 | M | ↑ 3m | ↔ 2m | D | Spring/Autumn
A delightful crab apple tree that bursts into a captivating display of vibrant rose-pink flowers in mid-spring, adorned with a subtle fragrance. As the season transitions, the leaves seamlessly transition to a rich bronze-green, painting the landscape with a symphony of colours. In autumn, Malus Profusion unveils its true splendour, showcasing a cascade of deep red fruits.

Red Sentinel
Malus
12 | M | ↑ 4m | ↔ 3m | D | Spring/Autumn
A compact deciduous tree known for its vibrant display throughout the year. In spring, it erupts in a profusion of showy pink-white blooms, attracting pollinators with their sweet fragrance. As summer progresses, its leaves transform into a rich emerald green. In autumn, the leaves adorn themselves in shades of fiery red and amber, creating a breathtaking spectacle before shedding for winter. During this dormant period, the tree's vibrant red fruits add a splash of colour to the barren landscape.

JFS Ivory Spear 'JFS KW214MX' (P)
Malus
10 | M | ↑ 6m | ↔ 2m | D | Sum/Aut | 🌿
Deep pink buds open to white flowers on this densely upright, narrow crabapple ideal for small gardens or patio pots. Leaves stay clean and disease free throughout the growing season, forming a uniform column of dark green foliage in the landscape. Bright cherry red fruits contrast well with the dark green leaves and persist into late autumn, when a touch of yellow autumn colour adds seasonal interest.

Royal Beauty
Malus

12 | S | ↑ 2.5m | ↔ 2m | D | 📅 Spr/Aut | 🌳

Boasting a graceful weeping form and a symphony of colours throughout the year. Slender branches, adorned with reddish-purple stems, cascade downwards, creating an enchanting spectacle. In spring, the tree erupts in a profusion of deep red-purple flowers. The leaves emerge in a copper-red hue, transforming into rich purple-green foliage throughout the summer. As autumn approaches, the leaves embark on a vibrant display, showcasing a palette of red, plum, and yellow tones. In addition to its aesthetic appeal, Malus Royal Beauty produces small, dark red fruits in autumn.

Royalty
Malus

12 | S | ↑ 3m | ↔ 2m | D | 📅 Spring/Autumn

A stunning deciduous tree with an upright, broadly columnar form. Its dark purple foliage, a rare and enchanting feature, emerges in spring and deepens into a rich crimson hue in autumn, creating a dramatic visual spectacle. In mid-spring, the tree bursts into bloom with clusters of small, deep purple-red flowers that emit a sweet fragrance. These flowers give way to small, round, dark red fruits that ripen in late summer.

Sun Rival
Malus

12 | S | ↑ 3m | ↔ 2m | D | 📅 Spring/Autumn

A charming semi-weeping crab apple tree with a delicate umbrella shape, adorned with arched branches that cascade gracefully towards the ground. Its petite leaves are an attractive shade of glossy green, transforming into a vibrant tapestry of oranges, yellows, and reds in autumn. In early spring, the tree bursts into a flurry of delicate white flowers, kissed with a hint of pink. These flowers produce small, round fruits that mature into a vibrant red hue, adding a touch of colour throughout the autumn season.

JFS Royal Raindrops 'JFS-KW5' (P)
Malus

12 | M | ↑ 3m | ↔ 2m | D | 📅 Spring/Autumn

Deeply lobed, glossy purple foliage emerges in spring, holding its stunning colour through summer. In mid-spring, fragrant magenta-pink blooms dance among the leaves, followed by a cascade of tiny red crabapples in late summer. These beauties persist into winter, a feast for birds and a vibrant accent against bare branches.

Toringo Scarlet
Malus

12 | S | ↑ 3m | ↔ 2m | D | 📅 Spring/Autumn

A small, spreading deciduous tree with an arching habit. The leaves emerge with a striking purple tinge, before maturing to a glossy green. In autumn, they transform into a breathtaking display of fiery reds, oranges, and yellows. The flowers burst forth in mid-spring, covering the tree in a profusion of dark pink blossoms. They are fragrant and attract a variety of pollinators. The fruits are small, round, and red, and persist on the tree throughout the winter.

Wedding Bouquet
Malus

12 | S | ↑ 2.5m | ↔ 2m | D | 📅 Spring/Autumn

One of the best flowering Malus varieties. Its slender, dark green leaves provide a backdrop for its true beauty – an explosion of ivory white, shell-shaped flowers that blanket the tree in spring. The delicate fragrance of these blossoms adds a romantic touch, reminiscent of a wedding bouquet. As summer fades into autumn, the tree adorns itself with clusters of glossy, dark red fruits, adding a touch of festive colour to the landscape.

Malus floribunda
Malus floribunda

12 | M | ↑ 3m | ↔ 3m | D | 📅 Spring/Autumn

Also known as Japanese Crabapple. Its rounded, broad-spreading canopy is adorned with slender, ovate, serrate, dark green leaves, creating a captivating backdrop for the tree's vibrant blooms. In early spring, the tree explodes into cascades of fragrant, double, white or pale pink blossoms. The flowers transform into tiny, round red or yellow fruits that adorn the branches in autumn.

Crimson Cascade (P)
Malus x purpurea

12 | S | ↑ 3m | ↔ 2m | D | 📅 Spring/Autumn | 🌳 🪴

A compact weeping crab apple tree that transforms gardens with its stunning beauty throughout the year. In spring, it erupts in a cascade of vibrant crimson flowers, providing a picturesque display of elegance and charm. As the season progresses, its leaves transition from striking purple hues to shades of bronze and green. In late autumn, the tree adorns itself with clusters of ruby-red crab apples. With its graceful weeping form and captivating colours, Malus Crimson Cascade is a true treasure for any garden or patio.

Fruitilicious
Malus x robusta

12 | M | ↑ 3m | ↔ 2m | D | 📅 Spring/Autumn

In spring, its graceful branches are adorned with large, creamy white flowers that emit a light fragrance. As the season progresses, these blossoms transform into clusters of large, elongated crab apples, ranging from green to vibrant shades of red and orange. The tree's glossy green leaves add a touch of vibrancy in summer, turning to a fiery orange and red in autumn.

Parrotia persica
Parrotia persica

12 | M | ↑ 3m | ↔ 2m | D | 📅 Autumn

Also known as Persian Ironwood. A large shrub or small tree of wide spreading habit, and grey flaking bark, especially decorative in mature trees. Large, deep green, oval leaves turn crimson/gold in autumn. Small delicate crimson flowers in late winter/early spring, followed by spiky brown fruits.

Louise (P)
Photinia x fraseri

12 | S | ↑ 3m | ↔ 2m | E | 📅 AYR | 🗑️

A picturesque evergreen shrub or small tree that captivates with its vibrant foliage and charming form. Its small, oval leaves emerge in a dazzling shade of crimson, gradually maturing to a blend of green, pink, and cream. In spring, the plant bursts into bloom, adorning itself with clusters of small, white flowers. As the season progresses, the tree bears small, red berries that provide a touch of colour in the autumn. 'Louise' is a compact and graceful addition to any garden, adding a burst of colour and interest all year round.

Red Robin
Photinia x fraseri

12 | S | ↑ 4m | ↔ 2m | E | 📅 AYR | 🗑️

An eye-catching evergreen shrub or small tree that brings a touch of fiery brilliance to your garden. Its young leaves emerge in a captivating shade of crimson, gradually maturing into a rich, glossy green. In spring, it adorns itself with clusters of creamy white flowers, adding a touch of delicate beauty to its vibrant foliage. The mature bark is smooth and greyish brown, providing a striking contrast to the lush greenery.

Accolade
Prunus

12 | M | ↑ 4m | ↔ 3m | D | 📅 Apr/May

A graceful, spreading cherry tree that paints your garden with a delicate blush of pink in early spring. Its clusters of semi-double flowers, up to 4cm in diameter, hang like fragrant bells, transforming the tree into a captivating spectacle. The leaves, small and dark green, add a touch of verdant charm, while the bark, smooth and greyish brown, provides a striking contrast. As the season progresses, the leaves turn to a fiery orange-red, creating a mesmerizing autumnal show.

Amanogawa
Prunus

12 | M | ↑ 3m | ↔ 2m | D | 📅 Apr/May | 🗑️

An elegant and compact cherry tree that is prized for its narrow, columnar growth habit and its stunning display of pale pink semi-double blossoms in late spring. The flowers, which have a delicate almond fragrance, cover the branches almost completely, creating a breathtaking spectacle. The leaves are oval and glossy green in summer, turning a vibrant reddish-orange in autumn. The bark is smooth and grey-brown. A popular choice for small gardens, patios, and courtyards.

Fragrant Cloud
Prunus

12 | M | ↑ 3m | ↔ 4m | D | 📅 Apr/May

An enchanting cherry blossom tree, it flaunts a spreading shape. In spring, its bright green leaves with a bronze tint give way to deep green in summer, transforming into fiery orange in autumn. The smooth, greyish-brown bark, tinged with reddish hues on young stems, complements large, semi-double, fragrant white blossoms. These blooms emerge abundantly in late spring, gradually taking on a pinkish hue as they fade.

Chocolate Ice
Prunus

12 | S | ↑ 3m | ↔ 2m | D | 📅 Apr/May | 🗑️

Unwrap a delightful surprise with Prunus Chocolate Ice, a small tree that packs a punch of colour and charm. In spring, deep chocolate-brown leaves unfurl, providing a dramatic backdrop for clusters of crisp white, fragrant flowers. As the season progresses, the leaves mature to a lush green, offering a cool contrast to vibrant orange and red autumn foliage.

JFS First Blush 'JFS-KW14' (P)
Prunus

12 | M | ↑ 3m | ↔ 2m | D | 📅 Feb/Mar | 🗑️

Erupts in early spring with a cascade of fragrant, double pink flowers, smothering its slender, upright form. The dark green foliage adds a touch of elegance, then transforms into fiery orange and red in autumn, creating a breathtaking display. Low-maintenance and disease-resistant, this cherry tree is perfect for smaller gardens.

Jacqueline
Prunus
12 | L | ↑ 4m | ↔ 2m | D | Apr/May
A captivating ornamental tree, boasts elliptical green leaves that turn stunning shades of red in autumn. Its smooth, coppery bark adds year-round interest. In early spring, blush-pink blooms adorn its branches, emitting a delicate fragrance. The tree's small, black fruits and upright, vase-shaped form enhance its appeal.

Kanzan
Prunus
12 | M | ↑ 4m | ↔ 3m | D | Apr/May
Boasts vibrant double-pink blossoms in spring, creating a stunning display. Its bronze-tinged young leaves evolve into dark green, providing a lush canopy. The bark is coppery-brown and peels attractively. This ornamental tree features a graceful spreading form.

Kiku-shidare Sakura 120cm
Prunus
12 | S | ↑ 3m | ↔ 3m | D | Apr/May | 🌳
A small tree with pendulous branches, is captivating when adorned with clear, deep pink, double flowers in late spring. The young bronze-green leaves transition to glossy green, complementing the smooth, reddish-brown bark. With an elegant weeping form, this tree enchants year-round, adding fragrance and charm.

Kiku-shidare Sakura 150cm
Prunus
12 | S | ↑ 3m | ↔ 3m | D | Apr/May | 🌳
As the Kiku-shidare Sakura TW 120cm stem but with a 150cm stem top worked.

Kursar
Prunus
12 | S | ↑ 3m | ↔ 2m | D | Mar/Apr
Boasts bronze-coloured young leaves maturing to dark green. Its mahogany bark exfoliates to reveal a polished appearance. Abundant deep pink blossoms adorn the tree in early spring, emitting a sweet fragrance. Small black fruits follow, complementing the tree's graceful, vase-shaped form and exceptional orange autumn hues.

Okame
Prunus
12 | S | ↑ 3m | ↔ 2m | D | Mar/Apr
A delightful ornamental cherry tree, features oval, serrated leaves that emerge bronze and mature to dark green. The smooth, reddish-brown bark provides winter interest. Bursting with vibrant carmine-rose blossoms in early spring, it exudes a sweet fragrance. This compact tree boasts a rounded shape and yields small, inconspicuous fruits.

Marie Mallet
Prunus
12 | S | ↑ 3m | ↔ 2m | D | Mar/Apr | 🌳
Prunus Marie Mallet is a delightful small weeping tree, perfect for compact gardens. Adorned with lance-shaped, glossy green leaves and a distinctive coppery bark, it features profuse shell-pink flowers in February and early March, emitting a lovely fragrance. Its small red fruits and vase-like form make it an enchanting addition to any landscape.

JFS Pink Cascade 'NCPH1' (P)
Prunus
12 | S | ↑ 3m | ↔ 3m | D | Apr/May | 🌳
A weeping cherry tree that steals the show in spring. Its delicate branches gracefully droop, adorned with a profusion of fragrant cherry-pink, single flowers that cascade towards the ground. The fragrance is subtle, yet sweet. Summer brings glossy green leaves, while autumn paints the scene with fiery reds and oranges.

P

P

Pandora
Prunus
12 | S | ↑ 3m | ↔ 2m | D | 📅 Mar/Apr | 🌿
Boasts lance-shaped bronze leaves that turn dark green in summer. Its glossy mahogany bark offers year-round interest. In spring, the tree blooms with single pink flowers, emitting a delicate fragrance. Small, black fruits follow, enhancing its appeal.

Pink Perfection
Prunus
12 | S | ↑ 3m | ↔ 3m | D | 📅 Apr/May
An ornamental cherry tree renowned for its elegant beauty. The lush green leaves transition to vibrant hues in autumn. Its smooth, reddish-brown bark adds year-round interest. In spring, the tree bursts into stunning double-pink blossoms with a delightful fragrance. This deciduous tree boasts a graceful, rounded form.

Shirotae
Prunus
12 | M | ↑ 4m | ↔ 3m | D | 📅 Apr/May
Prunus Shirotae, the Japanese Flowering Cherry or Mount Fuji Cherry, is a vigorous tree with slightly drooping branches. Its distinctly fringed, deciduous leaves transition from green to vibrant red in autumn. The smooth, shiny bark boasts a chestnut brown hue. In spring, the tree produces large, fragrant, single to semi-double white flowers in long clusters, resembling snowfall. The inconspicuous dark purple fruit adds subtle charm. With an upright, vase-shaped form and these distinctive features, it is a tree that brings elegance throughout the seasons.

Shogetsu (Shimizu-zakura)
Prunus
12 | M | ↑ 3m | ↔ 3m | D | 📅 Apr/May
Also known as 'Blushing Bride'. Its elliptical, serrated leaves emerge in vibrant green hues turning stunning orange-red in autumn. The bark is smooth and bronze with age. In spring, the tree showcases a profusion of double, fragrant white blossoms, pink in bud. Fantastic elegant spreading habit.

Royal Flame
Prunus
12 | M | ↑ 3m | ↔ 2m | D | 📅 Apr/May | 🌿
An upright tree with a pyramidal, uniformly branched crown, completely covered in small, fragrant, pure white flowers in spring. Foliage emerges bronze, becomes green in the summer, and then puts on brilliant autumnal displays of fiery orange, reds and yellows.

Royal Burgundy
Prunus
12 | S | ↑ 3m | ↔ 2m | D | 📅 Apr/May
A purple sport of Prunus Kanzan. Its lance-shaped leaves unfurl in a rich burgundy hue, complementing the glossy coppery bark. In spring, the tree bursts into a profusion of pink blossoms, filling the air with a delicate fragrance. Come autumn, its foliage turns a vibrant orange-red, adding a spectacular seasonal display.

Shirofugen
Prunus
12 | M | ↑ 3m | ↔ 2m | D | 📅 Apr/May
A gracefully spreading cherry tree that paints the spring sky with a cloud of fragrant, double white flowers. Bronze-red leaves emerge in spring, maturing to a lush green before transforming into a fiery palette of orange and reds in autumn. Delicate pink buds give way to up to 30 pure white petals, each blossom exuding a sweet, honey-like fragrance. Fruits follow, transitioning from green to deep red, offering a feast for birds.

Snow Showers
Prunus
12 | S | ↑ 3m | ↔ 2m | D | 📅 Mar/Apr | 🌿
A beautiful small weeping tree suitable for small gardens, features cascading branches adorned with snowy white fragrant blossoms in early spring. The elegant, serrated green leaves complement the smooth, bronze bark, and the tree boasts rich autumn foliage colour.

Tai Haku
Prunus
12 | M | ↑ 5m | ↔ 4m | D | 📅 Apr/May
Graces gardens with very large, single white flowers that stand out against the copper-coloured young foliage in mid-April. Its deciduous leaves, ovate and dark green, transition to vibrant hues in autumn. The smooth, shiny bark adds to its appeal.

Ukon
Prunus
12 | M | ↑ 3m | ↔ 2m | D | 📅 Apr/May
Lance-shaped leaves emerge bronze, turning glossy green in summer, then red-brown in autumn. Smooth, reddish-brown bark adds winter interest. In spring, it bursts into a profusion of fragrant, semi-double pale yellow flowers. The tree boasts an elegant, vase-shaped form.

Plena
Prunus avium

12 | L | ↑ 4m | ↔ 3m | D | Apr/May

This majestic deciduous tree flaunts a rounded crown and boasts glossy, elliptical leaves that emerge bronze in spring, transform to deep green in summer, and explode into a fiery tapestry of reds, oranges, and yellows in autumn. In late April/early May the tree erupts in a cloud of fragrant, fluffy, double, pure white flowers.

Pissardii Nigra
Prunus cerasifera

12 | M | ↑ 3m | ↔ 2m | D | Feb/Mar

Commonly known as Purple-Leaf Plum, showcases stunning deep purple foliage, enhancing garden aesthetics. Its smooth, dark purple bark adds winter interest. Blooming in early spring, the tree boasts fragrant pale pink blossoms. The fruit is small, red, and ornamental.

Princess
Prunus cerasifera

12 | S | ↑ 3m | ↔ 2m | D | Apr/May

A compact cherry plum tree that adds a touch of elegance to any garden. Its delicate pale pink blossoms adorn the branches in spring, creating a mesmerizing spectacle. Oval green leaves provide a refreshing backdrop throughout the growing season, and in autumn, they transform into a fiery display of red and orange hues. The tree's smooth, dark brown bark adds a touch of visual interest, and its compact size makes it ideal for small spaces. It also has edible plums.

Spring Glow
Prunus cerasifera

12 | M | ↑ 3m | ↔ 2m | D | Mar/Apr

Renowned for its vibrant foliage. The leaves, a rich burgundy colour, emerge in spring, accompanied by a stunning display of fragrant pink blossoms. Its smooth, mahogany bark complements the striking foliage. The tree bears small, dark red fruits, enhancing its appeal.

Prunus dulcis
Prunus dulcis

12 | M | ↑ 4m | ↔ 3m | D | Mar/Apr

An upright, spreading, deciduous tree with lance-shaped, toothed dark green leaves. Blossom is pink or white, scented, and produced on bare stems in early spring, followed by oval-shaped green fruit encasing edible almond nuts

The Bride
Prunus incisa

12 | S | ↑ 3m | ↔ 3m | D | Apr/May

Blooms with a cascade of fragrant pure white, single flowers in early spring, each adorned with contrasting red stamens. Fresh green leaves emerge in spring, transforming into fiery hues of orange and red in autumn. Dense, rounded shape matures to a vase-like form.

Myrtifolia
Prunus lusitanica

12 | S | ↑ 3m | ↔ 2m | E | AYR

Smaller, slender leaves than the species form, with a neat, conical, upright growing habit.

Prunus serrula
Prunus serrula

12 | M | ↑ 4m | ↔ 2m | D | AYR

Commonly known as the Tibetan Cherry, boasts elliptical green leaves that turn vibrant orange-red in autumn. Its striking feature lies in its mahogany-red, peeling bark, providing year-round interest. Blooming in late spring, it produces inconspicuous flowers, followed by small fruit. Its slender form and unique bark make it an appealing ornamental tree.

Autumnalis
Prunus subhirtella

12 | S | ↑ 3m | ↔ 2m | D | Aut/Spr

A small tree with ovate, serrated leaves with an attractive bronze hue. The bark is smooth and chestnut-coloured. Renowned for its unique trait of blooming intermittently from late autumn to early spring, it offers fragrant, white/pale pink blossoms. Small red cherries follow, enhancing the tree's visual appeal.

Pendula Rubra
Prunus subhirtella

12 | S | ↑ 3m | ↔ 2m | D | Apr/May

Features gracefully cascading branches adorned with deep pink, double blossoms in early spring. Its green leaves turn bronze in autumn. Smooth, copper-coloured bark adds visual interest. Fragrant blooms and a compact shape make it an enchanting addition to any garden.

Autumnalis Rosea
Prunus subhirtella

12 | S | ↑ 3m | ↔ 2m | D | 📅 Aut/Spr | 🍷

Commonly known as Winter-flowering Cherry, boasts elliptical, serrated green leaves. Its bark is a warm chestnut brown. Blooming from late autumn to early spring, the semi-double, bluish-pink flowers exude a delicate fragrance. Small, dark fruits follow. This deciduous tree offers a graceful, spreading habit and year-round visual interest.

Shidare-yoshino
Prunus x yedoensis

12 | S | ↑ 3m | ↔ 2m | D | 📅 Mar/Apr | 🌳

A graceful weeping cherry tree renowned for its elegant cascading branches. Its serrated, lance-shaped leaves emerge bronze, turning green in summer and golden in autumn. Smooth, reddish-brown bark adds winter interest. In early spring, it bursts into a profusion of Almond scented, pale pink blossoms, creating a stunning ornamental display.

Prunus x blireana
Prunus x blireana

12 | M | ↑ 3m | ↔ 2m | D | 📅 Apr/May

Its elliptical leaves showcase deep purple hues, creating an eye-catching contrast. The smooth, reddish-brown bark adds to its aesthetic appeal. Blooming in early spring, the tree produces fragrant, double pink flowers. The small, red-purple fruits complement its ornamental charm. This deciduous tree adds elegance with its vase-shaped silhouette, making it a delightful choice for gardens and landscapes.

Spire
Prunus x hillieri

12 | S | ↑ 3m | ↔ 1m | D | 📅 Apr/May | 🌳

A captivating ornamental tree. Its narrow, upright form showcases glossy, dark green leaves. Smooth, bronze bark adds interest. In late spring, fragrant white flowers bloom, followed by small black fruits. With a columnar shape, this tree adds elegance to gardens, thriving in well-drained soil and full sun.

Chanticleer
Pyrus calleryana

12 | M | ↑ 4m | ↔ 3m | D | 📅 Mar/Apr

Boasts glossy, dark green leaves that transition to vibrant red and orange hues in the autumn. The bark is smooth and greyish-brown. In early spring, it produces clusters of white flowers in March/April, followed by small, non-edible fruits.

Pendula
Pyrus salicifolia

12 | S | ↑ 3m | ↔ 3m | D | 📅 Apr/May | 🌳

Commonly known as Weeping Silver Pear, boasts slender, pendulous branches cascading gracefully. Its narrow, silvery-grey willow-like leaves create an elegant foliage contrast. In spring, bell-shaped white flowers bloom, followed by small, inconspicuous fruit. The smooth silver bark adds winter interest, making it a captivating ornamental tree.

Quercus ilex
Quercus ilex

10 | L | ↑ 4m | ↔ 3m | E | 📅 AYR

Commonly known as Holm or Holly Oak, boasts evergreen foliage with leathery, dark green leaves. Its bark is smooth, grey, and develops a fissured texture with age. The tree produces inconspicuous flowers in spring, followed by acorns.

Quercus robur
Quercus robur

12 | L | ↑ 4m | ↔ 2m | D | 📅 Autumn

Commonly known as English Oak, is a majestic deciduous tree with lobed, dark green leaves turning russet in autumn. Its rugged bark, greyish-brown and deeply furrowed, adds character. Flowering in spring, it produces inconspicuous yellow-green catkins, followed by acorns maturing in autumn.

Quercus rubra
Quercus rubra

12 | L | ↑ 3m | ↔ 3m | D | 📅 Autumn

Commonly known as the Red Oak, features large, oval, lobed leaves that transition from vibrant green to a striking red and finally brown in autumn before falling. Its bark is initially smooth and grey, later becoming ridged and furrowed. In spring, inconspicuous catkins bloom, followed by large acorns with distinctive caps.

Frisia
Robinia pseudoacacia

12 | M | ↑ 4m | ↔ 3m | D | 📅 Summer

A radiant tree that sets your garden ablaze with colour. Spring unveils lime green leaves, turning golden as summer unfolds. In late May, fragrant white blooms cascade down in graceful racemes, filling the air with a sweet perfume. Autumn ignites with fiery hues, leaves ablaze with oranges and reds before dropping to reveal dark brown pods.

Erythroflexuosa
Salix
12 | M | ↑ 3m | ↔ 3m | D | Winter
Commonly known as the Red twisted Willow, boasts slender, flexible branches with red stems. Its narrow leaves are lance-shaped and display a vibrant green hue. In late winter to early spring, catkins appear, complementing the red stems.

Pendula 120cm
Salix caprea
12 | S | ↑ 2m | ↔ 1m | D | Spr | T
The Kilmarnock Willow. A small, umbrella-like tree with stiffly pendulous branches. Attractive silvery catkins studded with golden anthers in the late winter. Top worked onto a bare S. caprea stem.

Tortuosa
Salix matsudana
12 | M | ↑ 3m | ↔ 2m | D | Spring/Winter
Commonly known as Corkscrew Willow, boasts distinctive twisted branches, creating an enchanting, contorted form. Its narrow, lance-shaped leaves are a vibrant green, offering a striking contrast. The bark is a smooth, reddish-brown hue. Flowering in spring, it produces small catkins, while its slender branches showcase a captivating, architectural allure.

Pendula 150cm
Salix purpurea
12 | M | ↑ 4m | ↔ 4m | D | Sum | T
Salix purpurea Pendula, commonly known as Weeping Purple Willow, showcases graceful, cascading purple branches. Its narrow, lance-shaped leaves emerge in a vibrant blue green hue. In late winter to early spring, catkins appear, adding charm to this deciduous beauty.

Pendula 150cm
Salix caprea
12 | S | ↑ 2m | ↔ 1m | D | Spr | T
As the Pendula TW 120cm stem but with a 150cm stem top worked.

Salix chrysocoma
Salix chrysocoma
12 | L | ↑ 4m | ↔ 3m | D | Spr/Win | T
Also known as golden Weeping Willow. This graceful giant drapes its cascading branches in shimmering golden shoots that mature to lush green. Spring unveils delicate yellow catkins, followed by summer's leafy tapestry of narrow, green leaves turning golden later as the season progresses.

Golden Tower (P)
Sambucus nigra
12 | S | ↑ 3m | ↔ 2m | D | Summer | T
An elegant deciduous large shrub/small tree with golden-yellow, finely dissected foliage, adding a striking vertical presence to gardens. Young stems are smooth light brown, often with a slight greenish tinge, turning greyish-brown and becoming rough with age. In late spring to early summer, creamy pink flowers appear, followed by red-black elderberries. This upright variety thrives in well-drained soil.

Black Lace (P)
Sambucus nigra
12 | S | ↑ 3m | ↔ 2m | D | Summer | T
An elegant large shrub/small tree known for its finely dissected, deep purple-black leaves, creating a striking contrast in the garden. The plant boasts pale pink to light pink flat-topped clusters of flowers in early summer, followed by dark purple-black berries.

Hakuro-Nishiki 120cm
Salix integra
12 | S | ↑ 2m | ↔ 2m | D | Sum/Aut | T
Boasts striking variegated leaves with hues of pink, white, and green. Its slender branches showcase a captivating blend of red and gold bark. In late spring, it produces small catkins, complemented by vibrant pinkish-purple foliage. A stunning, compact ornamental tree.

Hakuro-Nishiki 150cm
Salix integra
12 | S | ↑ 2m | ↔ 2m | D | Sum/Aut | T
As the Nishiki TW 120cm stem but with a 150cm stem top worked.

Sun King (P)
Sophora microphylla
12 | S | ↑ 2.5m | ↔ 2m | E | Spr/Sum | T
A wonderful addition to the sunny border, Sophora Sun King is a wonderful arching, evergreen, which puts on a dazzling display in late winter and early spring when its long-lasting flowers appear. Looking luminous in the low light, they're offset beautifully against the backdrop of rich green, pinnate foliage.

Joseph Rock
Sorbus

12 | M | ↑ 3m | ↔ 2m | D | 📅 Spring/Autumn

A stunning deciduous tree known for its pinnate leaves with serrated edges, transitioning from green to vibrant orange-red in autumn. The smooth, silver-grey bark complements the foliage. Clusters of creamy-white flowers bloom in spring, creamy-yellow fruits that mature to amber-yellow.

Lutescens
Sorbus aria

12 | M | ↑ 3m | ↔ 2m | D | 📅 Spring/Summer

Commonly known as Whitebeam, boasts elliptical leaves with a dense creamy-white tomentum on the upper surface, turning grey-green by late summer. Its smooth grey bark adds winter interest. In spring, clusters of white flowers bloom, later giving way to deep red fruits. This deciduous tree features an upright, rounded form, making it an attractive ornamental choice.

Autumn Spire (P)
Sorbus

12 | M | ↑ 3m | ↔ 1m | D | 📅 Spr/Aut | 🌳

Raised from a seedling of Joseph Rock, features an upright habit and stunning autumn leaf colours. The pinnate leaves transition from dark green to vibrant red and orange. Complemented by smooth silver-grey bark, the tree produces white spring flowers, culminating in clusters of yellow-orange berries in autumn.

Cardinal Royal
Sorbus aucuparia

12 | M | ↑ 3m | ↔ 2m | D | 📅 Spr/Aut | 🌳

A narrow, upright habit with dark green leaves, silvery beneath, transforming to a brilliant red in autumn. Clusters of bright red fruits adorn the tree in late spring, complemented by smooth, silver-grey bark, making it an enchanting ornamental tree.

Chinese Lace
Sorbus aucuparia

12 | S | ↑ 2.5m | ↔ 2m | D | 📅 Spr/Aut | 🌳

An exquisite deciduous tree with finely dissected, fern-like leaves that turn vibrant shades of orange and red in autumn. Its smooth, silvery-grey bark provides year-round interest. In late spring to early summer, clusters of creamy-white flowers appear, followed by bright red berries. This compact tree adds elegance to any garden with its delicate foliage and attractive seasonal changes.

Sheerwater Seedling
Sorbus aucuparia

12 | M | ↑ 3m | ↔ 2m | D | 📅 Spr/Aut | 🌳

A compact, upright tree with ascending branches, featuring pinnate dark green leaves turning vibrant orange-red in autumn. The smooth grey bark adds visual appeal. In late spring, large clusters of creamy-white flowers appear, followed by bright red berries. Its seasonal charm and appealing form make it a standout in any garden.

Sorbus cashmiriana
Sorbus cashmiriana

12 | S | ↑ 2.5m | ↔ 2m | D | 📅 Spring/Autumn

A slow-growing and beautiful small tree with an open habit and dark green leaves. Its deciduous foliage showcases pinnate leaves with a striking silver-green hue. The smooth grey bark adds winter interest. In late spring, soft pink flowers grace the tree, followed by creamy white berries in autumn, hanging in drooping clusters beneath the branches.

Sorbus aucuparia
Sorbus aucuparia

12 | M | ↑ 4m | ↔ 3m | D | 📅 Spring/Autumn

Sorbus aucuparia commonly known as Rowan or Mountain Ash, boasts finely divided fern-like leaves in a vibrant green hue. Its smooth grey bark complements the elegant foliage. In late spring, delicate white flowers appear, giving way to clusters of bright red berries in autumn.

Asplenifolia
Sorbus aucuparia

12 | M | ↑ 3m | ↔ 2m | D | 📅 Spring/Autumn

An elegant tree with fern-like foliage that turns bright red in autumn. Its finely divided leaves and smooth grey bark enhance its aesthetic appeal. In late spring, delicate white flowers emerge, transforming into large bunches of bright red berries in autumn.

Olympic Flame
Sorbus commixta

12 | M | ↑ 4m | ↔ 3m | D | 📅 Spring/Autumn

An enchanting deciduous tree. Its fern-like, pinnate leaves emerge red in spring, transitioning to green in summer. Striking cinnamon bark peels to reveal a smooth texture. Clusters of white flowers bloom in late spring, followed by orange-red berries.

Pink Pagoda
Sorbus hupehensis

12 | M | ↑ 3m | ↔ 2m | D | Spring/Autumn

A captivating ornamental tree. Its delicate blue-green foliage turns to a stunning red in autumn, complementing the smooth silver-grey bark. In late spring, fragrant white flowers transform into pink berries, eventually paling to white. The tree's elegant form and vibrant seasonal changes make it a garden standout.

Sorbus hupehensis
Sorbus hupehensis

12 | M | ↑ 3m | ↔ 2m | D | Spring/Autumn

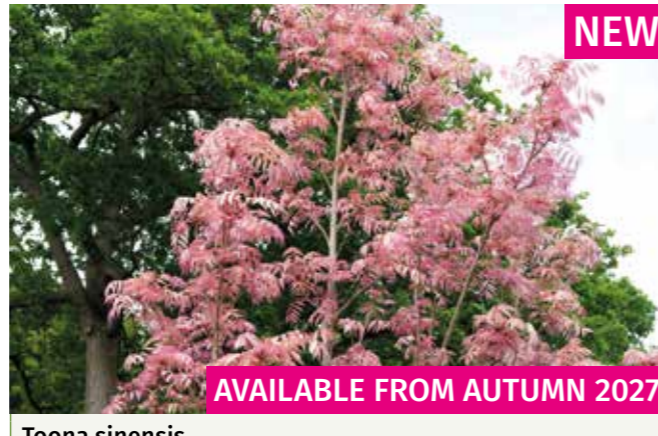

Features a compact head and open habit. Its blue-green leaves transform into brilliant red hues in autumn, complementing the smooth silver-grey bark. Late spring brings delicate white blossoms, followed by white berries with a charming pink tinge.

Sorbus vilmorinii
Sorbus vilmorinii

12 | M | ↑ 4m | ↔ 2m | D | Spring/Autumn

A deciduous tree with pinnate leaves that turn vibrant hues of orange and red in autumn. The peeling cinnamon-coloured bark adds winter interest. Clusters of orange-pink berries persist into winter, enhancing its graceful, upright silhouette.

Toona sinensis
Toona sinensis

12 | M | ↑ 6m | ↔ 4m | D | AYR

AVAILABLE FROM AUTUMN 2027

A selection of this deciduous species with bright salmon-pink spring foliage, paling to creamy-yellow then to rich green in summer. Old bark peels off in long strips. Flowers are whitish, borne in dense, drooping panicles in midsummer, fragrant. Fruits are winged capsules. All parts of the tree are aromatic, and flowers are attractive to insects.

Terms and Conditions

- INTRODUCTION**
 - In these conditions, the "Company" means Newey Limited, the "Buyer" means each person, firm or company purchasing any goods, "Consumer" means persons as defined in section 12 Unfair Contract Terms Act 1977 and "Goods" means the goods or materials supplied or to be supplied by the Company to the Buyer.
 - These conditions shall apply to the contract between the Company and the Buyer for the sale of those goods detailed in the order.
 - These conditions shall apply to the exclusion of any terms or conditions which the Buyer or any other person may state or refer to in correspondence, order forms or otherwise, whether before or after receipt by the Buyer of these conditions and notwithstanding any purported stipulation by the Buyer to the contrary or any custom, practice or course of dealing.
 - No variation, exclusion or waiver of any of these conditions shall be effective unless made in writing by a duly authorised representative of the Company.
 - ORDERS**
 - The Buyer's order (whether given orally or in writing) shall be deemed to be an offer to purchase the goods specified in the order. Such offer shall be deemed to have been accepted on receipt of an order confirmation from the Company.
 - The parties agree that if the Buyer is entitled to reject part of a delivery of goods the Buyer shall only be entitled to reject that part of the goods and shall accept the balance.
 - PRICE**
 - The price payable for the goods shall (subject as provided below) be the price specified in the Company's price list in force at the date of dispatch or collection. The Company reserves the right to vary any such price without notice at any time prior to contract.
 - The Company may adjust its price list if there are significant currency exchange rate variations.
 - All prices for goods quoted by the Company are exclusive of Value Added Tax.
 - All prices for goods quoted by the Company are inclusive of carriage to the UK Mainland, excluding the Scottish Highlands. The Scottish Highlands and outside the UK mainland (including ports on the Channel Islands, Isle of Wight, and the Isle of Man) are subject to additional delivery charges.
 - MINIMUM ORDER SIZE**
 - All orders are subject to our minimum order size of 1 full trolley or pallet. Details of this can be obtained from our customer service team.
 - Additional part trolley(s) may be subject to an extra delivery charge payable by the Buyer.
 - DELIVERY AND PASSING OF PROPERTY AND RISK TO BUYER**
 - Goods shall be delivered at the place of delivery as stated on the order confirmation or deemed to be delivered when collected by or on behalf of the Buyer.
 - Risk of damage to or loss of the goods shall pass to the Buyer at the time of delivery or collection or if the Buyer wrongfully fails to take delivery of the goods at the time when the Company has tendered delivery of the goods.
 - If the Buyer fails to take delivery of any goods ordered by him the Buyer shall pay the Company a commercial rate for any surcharges incurred by the Company and the handling, storage and re-delivery of such goods. Should the Buyer fail to take delivery within 7 days of the original date for delivery of any goods the Company shall be able to treat such contract as having been repudiated and the parties agree that 100% of the purchase price shall be payable by the buyer as liquidated damages.
 - Whilst every effort will be made by the Company to effect delivery in accordance with any pre-arranged dates, all delivery dates and schedules stated by the Company are approximate and shall not imply any obligation on its part to deliver the goods on any particular date or within the time stipulated. The Company shall in no circumstances be liable for any loss or damage the Buyer may incur as a result of or in connection with any delays in delivery.
 - The Buyer shall inspect the goods on delivery and it is agreed that unless the Buyer immediately rejects the goods within 2 working days by written confirmation then the Buyer shall be deemed to have accepted the goods, subject to the Company's claims procedure as detailed in section 7.
 - Notwithstanding delivery and the passing of risk in the goods to the Buyer, or any other provision of these conditions, title to the goods shall only pass to the Buyer on receipt by the Company in cash or cleared funds payment in full of the price of (1) the goods and (2) all other goods of whatever nature agreed to be sold by the Company to the Buyer for which payment is then due.
 - The delivery vehicles used by the Company require sufficient space to manoeuvre. Deliveries will not be made where the access or area is not suitable to unload and is likely to cause damage to the vehicle, goods or driver. The Buyer is responsible for making the Company aware of all access restrictions to the delivery address when placing an order. The Company reserves the right to source an alternative vehicle in order to fulfil the order at the cost of the Buyer.
 - The Company reserves the right to refuse delivery to any address within 14 days of the delivery address being confirmed by the buyer. Where alternative or multiple delivery addresses are agreed clauses 5.1 to 5.7 are still applicable.
 - DANISH TROLLEYS**
 - All trolleys (including shelves) used by the Company will have the correct Container Centralen identification at the time of delivery.
 - If goods are delivered to the Buyer by Container-Centralen trolleys and these are left at the Buyer's premises, the following terms and conditions shall apply.
 - Ownership of the said trolleys shall in no circumstances pass to the Buyer
 - All such trolleys delivered by the Company to the Buyer shall be used for no purpose other than for containing plants delivered by the Company.
 - While trolleys are on the Buyer's premises or within the Buyer's control, the Buyer shall take all reasonable steps to keep and secure the same in good condition. Any loss of or damage (howsoever caused) shall be charged to the Buyer (together with any rental and handling costs involved) at the current rate charged by Container Centralen.
 - All such trolleys (or equivalent in number and condition) are returnable to the Company on demand and shall be returned in good condition.
 - All trolleys and shelves returned to the Company must have the correct Container Centralen identification. Non return of like-for-like trolleys will incur a daily rental charge and replacement charge in line with that set by Container Centralen.
 - If trolleys are exchanged at the time of delivery, clauses (iv)-(v) above are still applicable.
 - CLAIMS**
 - The Buyer shall as set out in clause 5.5 inspect the goods on their arrival or collection and shall be responsible for any consequential losses caused by any defects in the goods that a reasonably competent person in the Buyer's position would have detected during a reasonably thorough inspection.
 - Any claim by the Buyer which is based on short delivery or that the condition of the goods makes their quality unsatisfactory or their failure to correspond with the Company's specification for such goods must (irrespective of whether the goods have been accepted or purportedly rejected in accordance with clause 5.5 above) be made in writing and be received by the Company setting out both the basis and level of the claim within 2 days after delivery of the goods to the buyer. The Company has the right to request photographic evidence to support any claim, this must also be provided within 24 hours of a request being made in writing to the buyer.
 - Failing this, the Buyer shall be deemed to have accepted the goods unconditionally and the Company shall have no liability for any such short delivery, unsatisfactory quality or failure to correspond with specification.
 - The Company shall have 2 working days from the receipt of such a claim to accept or reject the claim and communicate the same to the Buyer (time not being of the essence). If the Company accepts the validity of a claim the Company shall be entitled (at its option) to replace such goods free of charge or issue a credit note for the invoice value of such goods and having done so shall have no further liability to the buyer in respect of such defect or failure. All goods subject to credit note or replacement must be returned to the Company or destroyed.
 - PAYMENT**
 - Payment of invoices shall be made in full without deduction, set off or counterclaim no later than the time specified on the relevant invoice, time to be of the essence.
 - Where an invoice is not paid by its due date then the time for payment of all invoices then unpaid shall be forthwith and the Buyer shall pay interest (both before and after judgement) on the total sums owing to the Company at a rate of 8% plus Bank of England base rate. Such interest to accrue on a daily basis.
 - The Buyer will be liable, on a full indemnity basis, for all costs, expenses and liabilities of whatever nature incurred by the Company in recovery or settlement of debts not paid by the due date.
 - The date that the Company has been paid shall be the date that the Company's bank irrevocably credits the Company's account. The Company shall use all reasonable endeavour to ensure this is as early as possible.
 - WARRANTIES**
 - Other than in respect of death or personal injury caused by the negligence of or a breach of contract by the Company, the Company shall not be liable to the Buyer for any damages or losses whatsoever whether caused by the negligence or other breach of duty by the Company, its employees or agents or otherwise that may either directly or indirectly be occasioned by the goods or by the use of the goods or connected with the goods in any other way.
 - No warranty is given that the goods are fit for any particular purpose (whether or not such purpose has been made known to the Company) except to the extent that the Company has advised in writing on the suitability of the goods for a particular purpose.
 - Where the Company gives (either on the packaging of the goods supplied or in accompanying literature or in the Company's trade literature dealing with the goods) written instructions or recommendations for the storage, handling or other use of or otherwise in connection with the goods the Buyer agrees to follow or comply with all such instructions or recommendations as otherwise the nature, characteristics and performance of the goods supplied may be adversely affected.
 - The Buyer acknowledges that the Company has no control over the storage or any other use of the goods or over weather or other environmental conditions or the actions of pests after the goods have been delivered and that each of these matters can affect the nature, characteristics and performance of goods supplied by the Company.
 - The Buyer shall indemnify the Company in respect of any losses, costs, expenses or liabilities arising out of the goods, their use or storage or otherwise.
 - Subject as expressly provided in these conditions all warranties, conditions or terms implied by statute, common law, custom, and practice or otherwise are excluded to the fullest extent permitted by law. The Company shall not in any circumstances be liable for any indirect or consequential losses arising directly or indirectly from or in connection with the goods. Without prejudice to the above should the Company be found liable in any circumstances including negligence or breach of duty in respect of or in connection with the goods, any compensation and damages payable under any claim or claims howsoever arising shall not in aggregate amount to more than the price at which the claimant purchased the particular goods forming the subject of the claim.
 - The Buyer acknowledges that the Company's employees or agents are not authorised to make any representation or give any warranty or give advice concerning the goods unless such representation warranty or advice has been confirmed by the Company in writing. In entering into the contract the Buyer acknowledges that it does not rely on, and waives any claim in connection with, any such representation or warranty, and does not rely on any advice, which is not so confirmed.
- BUYER'S DEFAULT**
 - The Buyer will be in default if the Buyer:
 - refuses or fails to take delivery of the goods tendered in accordance with the contract; and/or
 - breaches any of these conditions including without limitation failure or delay in payments for any goods (or part thereof) on the due date; and/or
 - makes any voluntary arrangement with creditors or becomes bankrupt or has a receiver appointed in respect of all or any part of the buyer's assets; and/or
 - (being a company) commences to be wound up (other than solely for the purposes of solvent amalgamation or reconstruction) or has an administration order made in relation to it; and/or
 - is believed by the Company to be in circumstances which entitle the Court, or a creditor to appoint or seek the appointment of a receiver, administrator or manager, or which entitle the Court to make a winding-up order, or if the buyer takes or suffers any similar or analogous action in consequence of debt; and/or
 - if there is a change in the management or control of the buyer; and/or
 - if the buyer is in breach of the terms of clause 9.2 below and/or
 - if the Company reasonably apprehends that any of the above in 9.1 will or may in its opinion occur or be about to occur in relation to the Buyer; the Company may without prejudice to its other rights forthwith terminate this contract and/or require immediate payment of all sums under this contract whether or not the price in respect of the goods is otherwise due and payable by the Buyer at such time and/or immediately and without notice enter upon any premises of the Buyer where goods are stored or where they are reasonably thought to be stored for the purposes of repossessing them.
 - The Buyer shall not be entitled to pledge or in any way charge by way of security for any indebtedness any of the goods in respect of which title has not passed to the Buyer in accordance with clause 5.6 of this contract and in the event that the Buyer does so pledge or charge any of the goods all moneys owing by the Buyer to the Company shall (without prejudice to any other right or remedy of the Company) forthwith become due and payable.
 - NO WAIVER**
 - No forbearance or indulgence by the Company shown or granted to the Buyer whether in respect of these conditions or otherwise shall in any way affect or prejudice or be regarded as a waiver of any rights of the Company against the Buyer.
 - GENERAL**
 - All disputes arising out of or in connection with the contract, shall be governed by English law and, in entering into the contract the Buyer submits to the non-exclusive jurisdiction of the English Courts.
 - FORCE MAJEURE**
 - This contract may be terminated or suspended in whole or in part by the Company by reason of the prospect, happening or result of any industrial dispute, act of God, war, civil commotion, legislation, breakdown of machinery, inability to obtain supplies, raw materials, equipment fuel, power, components or transportation, inability to obtain any necessary import or export or other licences or the consent of any governmental authority or any other cause or circumstances whatsoever beyond its control without liability on the part of Company for any loss or damage whatsoever whether direct or indirect.
 - If the Company shall elect to terminate this contract pursuant to the above clause 13.1, and a part only of the goods to be delivered under this contract has been so delivered at the time of such termination the Buyer shall remain liable for payment of the part of the price that relates to such delivered goods irrespective of termination.
 - Where goods have been ordered and purchased by the Company for the sole purpose of supplying the Buyer, the Company can refuse a request to cancel the order and demand payment in full for these Goods even if the customer has refused delivery.
