Hoheria sexstylosa Snow White (P)

Prunus Royal Burgundy

Sorbus Autumn Spire (P)
With over 40 years of experience at our New Place Nurseries producing high quality ornamental trees for the UK retail market, we feel we have offered a bigger and more improved range for 2019. The varieties have and will continue to be selected to satisfy the requirements of current gardens, with more gardeners looking for trees suitable for small to medium gardens. Look out for the recommendations for trees to plant in small, medium and large gardens at the end of this section.

Primarily produced from budding and grafting, the three-year trees are produced in a 12 litre rigid container.

With advanced husbandry techniques, our trees are produced to a full but compact specification with an overall height of 1.8 - 2.1 metres with side branches retained where appropriate.
**Acacia**

**Acacia dealbata**

An attractive evergreen tree for sheltered gardens or planting against a south facing wall. Fern-like silvery green leaves complemented by bobbly fragrant yellow flowers in late winter and early spring.

**Barcode**

5038057003434 8m/4m

**Gaulois Astier**

**Acer**

**Acer campestre**

The Field Maple - during the autumn the leaves turn shades of gold and red.

**Barcode**

503805700020 12m/8m

**Viper (P)**

5038057012863 7m/3m

Eye-catching green and silvery white striated bark that resembles snake skin which makes for fantastic winter appeal. Before then, the leaves are dark green and turn orange for Autumn.

**Acer platanoides**

**Crimson King**

Leaves are a deep crimson and purple colour. Flowers are yellow with red tinges.

**Barcode**

503805700112 8m/5m

**Acer platanoides**

**Crimson Sentry**

A narrow, columnar tree with reddish-purple leaves. Not as dark as Crimson King and more compact in habit.

**Barcode**

503805700013 6m/2m

**Drummondii**

Leaves carry a striking broad marginal creamy-white band.

**Barcode**

5038057000143 6m/4m

**Acer platanoides**

**Princeton Gold**

A brilliant, golden leaved form of the adaptable Norway Maple. Resistant to sun scorch.

**Barcode**

503805700150 8m/5m

**Acer pseudoplatinus**

**Brilliantissimum**

Leaves open a salmon pink colour, later changing to yellow-green and finally green. 150cm stem.

**Barcode**

503805700167 4m/4m

**Simon Louis Fre’res**

Young leaves are marked with creamy-white and pink, maturing as pale green with white markings, the underside of the leaf remains green.

Height/Spread in 20 years
Acer Princeton Gold
This Norway Maple shows striking, clear yellow spring and summer foliage. One of the very best for golden yellow leaf colour, it is resistant to sun scorch and very hardy. Yellow clusters of small flowers appear on the bare branches in April, along with helicopter-like seeds later in the year.

8m x 5m in 20 years.
Amelanchier asiatica Ballerina

An award-winning small tree with a broad crown worthy of a place in any sized garden. Produces clusters of star shaped, large white flowers borne in April.

Foliage unfurls a highly attractive bronze colour in spring, before turning dark-green in summer. The oval leaves, which have a fine serration at the edges, are bronze when young turning to a striking reddish-purple colour in autumn for an incredible display. Small red berries are produced which are popular with birds.

4m x 4m in 20 years.
**Acer**

**Acer rubrum**

October Glory

5038057000211 7m/4m

Forms a dense round head, glossy green leaves turn a brilliant tone of red in autumn. Holds onto its leaves until quite late in the season.

**Acer rubrum**

Summer Red

5038057010050 12m/4m

A stunning form of Acer rubrum. The new growth is crimson-red in summer contrasting well with the older green leaves - excellent two tone autumn colours of crimson and yellow.

**Amelanchier**

**Amelanchier canadensis**

Small, upright grower. Profusion of star-shaped white flowers in spring. Vibrant autumn colours.

---

**Amelanchier asiatica**

Ballerina

5038057000297 4m/4m

An award-winning small tree with a broad crown worthy of a place in any sized garden. Produces clusters of star shaped, large white flowers borne in April. Foliage unfurls a highly attractive bronze colour in spring, before turning dark-green in summer. The oval leaves, which have a fine serration at the edges, are bronze when young turning to a striking reddish-purple colour in autumn for an incredible display. Small red berries are produced which are popular with birds.

---

**Arbutus**

**Arbutus unedo**

Small evergreen tree with attractive brown bark. Small white flowers and red strawberry-like fruit in autumn. Suitable for coastal planting and tolerant of chalky soils.

**Betula**

**Betula albosinensis**

Chinese red barked Birch - this selection has copper-orange bark which peels away to reveal layers of cream and creamy-pink coloured bark which turns white with age. Graceful, medium sized tree.

---

**Betula pendula**

Dalecarlica

5038057000389 7m/3m

Slender tree, drooping branches of delicate and deeply cut leaves.
Betula

Betula pendula

Royal Frost

5038057008491
7m/5m
A hybrid between Betula Crimson Frost and populifolia Whitespire with rich burgundy leaves that contrast well against the white bark. Good autumn colour when the leaves turn orange-red.

Betula pendula

Youngii

5038057000426
4m/4m
A small to medium dome shaped tree with long branches weeping to the floor. Typical shiny birch leaves then yellow-brown catkins followed by warm yellow autumn colour.

Betula pendula

Salt Eurosperma

5038057000372
7m/4m
Silver Birch. Tall domed crown, pendulous branches develop with age. Bright green diamond shaped leaves. White peeling bark develops with age.

Betula utilis

Snow Queen

5038057001829
7m/3.5m
Produces a brilliant white stem in two years and has good yellow autumn colour.

Betula utilis

var. jacquemontii

5038057000341
6m/5m
The Himalayan Birch. Attractive ascending branches with ovate leaves that turn yellow in autumn. Catkins in early spring. The bark is a striking white colour.

Betula

Grayswood Ghost

5038057013259
8m/4m
A slightly upright, rounded form with striking white bark. Large, polished green leaves turning yellow in autumn. Yellow-brown catkins in spring.

Carpinus

Carpinus betulus

Fastigiata

5038057000471
7m/4m
A medium sized tree of pyramidal habit which broadens with age. During autumn, the ovate deep green ribbed leaves turn yellow and orange.

Carpinus betulus

Common Hornbeam. Round headed tree with a grey, fluted trunk. The prominently veined dark green leaves turn yellow and orange in autumn.

Catalpa

Catalpa bignonioides

Aurea

5038057000495
5m/4m
Golden Indian Bean Tree. Medium sized, spreading tree with large oval yellow leaves when young which mature to green. White flowers with yellow and purple markings in summer.
**Catalpa, Ceanothus, Cercis, Cotoneaster**

### Catalpa erubescens
- **Purpurea**
  - **5038057000518**
  - **6m/5m**
  - Large, heart-shaped leaves which, when young, are a deep glossy purple, turning to shades of dark green and chocolatey-purple as they mature. Produces its foxglove-like flowers even at a young age.

### Ceanothus arboreus
- **Trewthen Blue**
  - **5038057005162**
  - **5m/2m**
  - An excellent large spreading shrub or small tree with large ovate leaves. Large panicles of slightly scented deep-blue flowers in April - May. Suitable for most well drained soils and coastal sites, avoid chalk.

### Cercis canadensis
- **Forest Pansy**
  - **5038057003410**
  - **5m/4m**
  - A small round headed tree with heart shaped leaves which are a deep reddish-purple colour. Small pink flowers are formed in April and May.

### Cercis canadensis
- **Ruby Falls (P)**
  - **5038057010500**
  - **2.5/2.5m**
  - The result of a long breeding programme; a superb weeping form with large heart shaped leaves which are a deep reddish-purple colour. Small pink flowers are formed in April and May on bare limbs.

### Cercis chinensis
- **Avondale**
  - **5038057004196**
  - **2.5/2.5m**
  - A beautiful small tree. Shiny rich green leaves and profuse purple-pink flowers in May on bare limbs.

### Cercis siliquastrum
- **Bodnant**
  - **5038057009344**
  - **6m/4m**
  - The Judas Tree. A slow growing small to medium sized tree with rounded green leaves and an abundance of rosy-lilac flower clusters which are formed in early May on bare limbs.

### Cotoneaster x watereri
- **Cornubia**
  - **5038057000549**
  - **8m/4m**
  - A semi-evergreen. The red bark shows off the green leaves. White flowers are followed by a profusion of red fruits which will arch the longer branches.

### Cotoneaster
- **Hybridus Pendulus**
  - **5038057000556**
  - **2m/1m**
  - Striking small tree. Abundance of brilliant red fruits through autumn and winter.
### Cotoneaster
- **Rothschildianus**
  - **Code:** 5038057000570
  - **Height/Spread:** 8m/8m
  - A semi-evergreen with striking green bark. White flowers followed by large clusters of creamy-yellow fruits.

### Crataegus
- **Crataegus laevigata**
  - **Crimson Cloud**
    - **Code:** 5038057000587
    - **Height/Spread:** 5m/4m
    - Small tree, semi-weeping. Excellent show of dark red single flowers with a pronounced white eye.
  - **Paul's Scarlet**
    - **Code:** 5038057000594
    - **Height/Spread:** 5m/4m
    - Small growing tree which produces masses of double scarlet flowers. The dark green, deeply lobed leaves which are slightly glossy, turn yellow-bronze in autumn.

### Cytisus
- **Cytisus battandieri**
  - **Plena**
    - **Code:** 5038057000600
    - **Height/Spread:** 5m/4m
    - A striking, snowy display in spring when a mass of double white flowers are produced. The foliage is dark, polished green and deeply lobed creating the perfect backdrop for the icy white flowers.

### Eucalyptus
- **Eucalyptus gunnii**
  - **Azura (P)**
    - **Code:** 5038057004844
    - **Height/Spread:** 8m/6m
    - A selection from a French breeding programme. A compact tree which is hardier and branches more extensively than the normal form. Evergreen silver-jade glaucous round foliage.
  - **Silverana (P)**
    - **Code:** 5038057013549
    - **Height/Spread:** 8m/6m
    - This fast-growing evergreen tree can be planted in a large space as a stand-alone specimen or kept to smaller proportions using pruning methods such as coppicing or pollarding.

<thead>
<tr>
<th>Tree</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Euonymus</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Eucalyptus niphophila</strong></td>
<td>A broad spreading tree with large leathery grey-green leaves and beautiful patterned bark. Evergreen.</td>
</tr>
<tr>
<td><strong>Euonymus europaeus</strong></td>
<td>A selected form of the common Spindle with green stems and arching branches. Rosy-red fruits are formed during summer and the leaves turn a rich scarlet colour during autumn.</td>
</tr>
<tr>
<td><strong>Euonymus</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Exochorda serratifolia</strong></td>
<td>Small tree with pure white flowers which are formed in abundance in early spring. Ideal for the small garden.</td>
</tr>
<tr>
<td><strong>Fagus</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Fagus sylvatica</strong></td>
<td>The Common Beech. Forms a noble, broadly domed tree. Outstanding rich copper autumn foliage.</td>
</tr>
<tr>
<td><strong>Fagus sylvatica</strong></td>
<td>Magnificent specimen tree. The leaves open as light red then deepen to a dark purple.</td>
</tr>
<tr>
<td><strong>Ginkgo</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Ginkgo biloba</strong></td>
<td>Dating back 270 million years and surprisingly a conifer tree! The unusual fan shaped foliage is light green, turning bright, clear yellow in the autumn. The leaves are often split in the centre into two lobes.</td>
</tr>
<tr>
<td><strong>Gleditsia</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Gleditsia triacanthos</strong></td>
<td>A striking medium sized tree which has thornless stems and bright golden-yellow young leaves that contrast well with the older dark green foliage.</td>
</tr>
<tr>
<td><strong>Hoheria</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Hoheria sexstylosa</strong></td>
<td>Bred by the late Graham Hutchins. Will thrive in the south and even further north if given a sheltered position against a wall. Neat pyramid shape habit and masses of single white cherry-like flowers in June.</td>
</tr>
<tr>
<td><strong>Ilex</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Ilex altaclarensis</strong></td>
<td>A large spreading evergreen shrub or small tree with leaves which are green with a yellow margin. Female clone producing red berries in winter. Suitable for planting in sun or shade in most soils.</td>
</tr>
</tbody>
</table>
### Ilex

**Ilex aquifolium**
- **Argentea Marginata**
  - Additional Barcode: 5038057000747
  - Additional Height/Spread: 8m/7m
  - Description: A large spreading evergreen shrub or small tree with purple stems, green leaves, and yellow spines along the edge. Small white flowers followed by bright red berries. A female form. Evergreen.

**Ilex aquifolium**
- **J.C. van Tol**
  - Additional Barcode: 5038057004288
  - Additional Height/Spread: 10m/6m
  - Description: A large spreading evergreen shrub or small tree with dark foliage. Cup-shaped flowers can reach 10cm in length, with nine rosy-pink tepals, soon fading to pale pink with a magenta central stripe on the outside. This is a sterile clone with reliable autumn colour. The mid green leaves turn a rich black to crimson-red colour. Unlike other cultivars, the bark remains fairly smooth.

**Ilex aquifolium**
- **Madame Briot**
  - Additional Barcode: 5038057012917
  - Additional Height/Spread: 12m/8m
  - Description: A purple stemmed form with green leaves, margined dark yellow with spines all along the edge. Small white flowers followed by bright red berries. A female form. Evergreen.

### Juglans

**Juglans regia**
- **Common Walnut**
  - Additional Barcode: 5038057000747
  - Additional Height/Spread: 8m/7m
  - Description: Slow growing but eventually a large tree. Attractive aromatic foliage. Yellowish-green catkins in late spring. Edible creamy-white nuts enclosed in smooth shells in autumn.

### Liquidambar

**Liquidambar styra.**
- **Lane Roberts**
  - Additional Barcode: 5038057012917
  - Additional Height/Spread: 4m/1.5m
  - Description: This is a sterile clone with reliable autumn colour. The mid green leaves turn a rich black to crimson-red colour. Unlike other cultivars, the bark remains fairly smooth.

**Liquidambar styra.**
- **Worplesdon**
  - Additional Barcode: 5038057000808
  - Additional Height/Spread: 10m/6m
  - Description: Longer and more narrow leaf lobes than the species. Rich autumn tints in shades of orange and red.

### Liriodendron

**Liriodendron tulipifera**
- **Tulip tree**
  - Additional Barcode: 5038057000815
  - Additional Height/Spread: 12m/8m
  - Description: Tulip tree. Eventually a large tree remarkable for its tulip shaped leaves and bright yellow autumn colour.

### Magnolia

**Magnolia**
- **Genie (P)**
  - Additional Barcode: 5038057012917
  - Additional Height/Spread: 4m/1.5m
  - Description: Lightly scented tulip-shaped flowers in late spring. The flowers start as a blackish-red bud and open to display a rich maroon colour. They are frequently followed by a second round of flower in mid summer.

**Magnolia**
- **Heaven Scent**
  - Additional Barcode: 5038057013266
  - Additional Height/Spread: 12m/8m
  - Description: A vigorous small tree with dark foliage. Cup-shaped flowers can reach 10cm in length, with nine rosy-pink tepals, soon fading to pale pink with a magenta central stripe on the outside.
Liquidambar styra. Worplesdon
A stunning sweet gum variety with leaves that are longer and have narrow lobes, turning an amazing shade of deep orange and yellow in Autumn. It will also bear fruit in the UK.

10m x 6m in 20 years.
Magnolia

Star Wars
5038057012924
4m/3m

Prized for its tremendous flowers which appear in March and often display until May. The huge, satiny, tulip-shaped, pale pink blooms are flushed with a shade of deep pink. Large, glossy green foliage.

Yellow Bird
5038057012931
10m/6m

In our opinion the best lemon yellow flower colour of all the new yellow hybrid Magnolias. The flowers, although not the largest, have a neat goblet shape and bloom in late spring just as the leaves emerge.

Crimson Cascade (P)
5038057012948
3m/2m

An arching, weeping habit and purplish foliage in spring, accompanied by crimson flowers. Bronze-green foliage and reddish-purple fruits in late summer to autumn. Ideal for small gardens.

Malus floribunda

Arching habit, crimson buds open white or pale blush at the end of March followed by small yellow fruits.

Malus tschonoskii

Distinctive upright habit. Young foliage is silvery white in spring, adopting a lush green colour in summer before developing its stunning intense orange, yellow, red and purple autumn colours.

Malus x robusta

A improved form of Malus robusta selected from stock on our own nursery. Bright, large white flowers in May are followed by the largest deep orange crab apples produced by a Malus variety.

Malus

Direktoer Moerland
5038057000822
12m/8m

A disease resistant variety, very similar to Profusion but slightly more vigorous. Good autumn colour.

Evereste
5038057000839
5m/4m

Free flowering with large soft pink to white flowers in April and May. Small red partially lobed leaves and yellow fruits which last into winter months.

Golden Hornet
5038057000853
5m/4m

Small tree with white flowers which are followed by large crop of bright yellow fruits that are retained late into winter. This is one of the best crab apples for general planting.
Malus x robusta Fruitilicious

A truly outstanding introduction from an unknown source by New Place Nurseries. Originating in Norfolk, this small to medium sized tree has large, single white flowers tinged pink that open in late April or early May. These are followed in September by clusters of huge deep red oval-shaped fruit which persist well into December before the birds can resist them no longer! Excellent for making crab apple jelly and attracting both bees and birds to gardens.

5m x 4m in 20 years.

Barcode

Height/Spread in 20 years
### Parrotia

**Parrotia persica**

A large shrub or small tree with wide-spreading habit and grey flaking bark. The large, green, oval leaves turn crimson and gold in autumn. Delicate, almost inconspicuous crimson flowers in late winter.

- **Height:** 6m/4m
- **Product Code:** 5038057004318

### Photinia

**Photinia x fraseri**

Variegated young shoots with pink and rosy-red markings. Leaves mature to green, cream and purple-pink variegation. Provides all year round interest - more compact growing than Pink Marble.

- **Height:** 2m/1m
- **Product Code:** 5038057010876

**Photinia x fraseri**

Commonly produced as a shrub, we produce this variety as a tree with a clear stem. Makes an evergreen feature in the winter and shows its stunning, bright burgundy new growth in the spring.

- **Height:** 2m/1m
- **Product Code:** 5038057001867

### Prunus

**Prunus avium**

- **Plena**
  - **Height:** 8m/8m
  - **Product Code:** 5038057001072
  - **Synonym:** Colt

  Spreading habit. Masses of drooping, double white flowers in mid to late spring. Good autumn colour.

**Prunus cerasifera**

- **Pissardi Nigra**
  - **Height:** 5m/4m
  - **Product Code:** 5038057001102
  - **Synonym:** Myro/St J

  Very dark purple leaves and stems with pale pink flowers in March and April.

**Prunus cerasifera**

- **Spring Glow**
  - **Height:** 5m/4m
  - **Product Code:** 5038057001126
  - **Synonym:** Myro/St J

  Clusters of large, single pink flowers against coppery-bronze foliage.

**Prunus dulcis**

- **The Bride**
  - **Height:** 4m/4m
  - **Product Code:** 5038057012689
  - **Synonym:** Colt

  A pure white profuse flowering Fuji Cherry tree. A lovely delicate, dense and shrubby tree, perfect for small gardens. Pale pink in bud. Bright red flower anthers stand out against white petals.

**Prunus incisa**

- **Brilliant**
  - **Height:** 2.5/2.5m
  - **Product Code:** 5038057004363
  - **Synonym:** Colt

  A compact, upright, large shrub or small tree suitable for patio growing. Bright, showy white flowers produce a stunning display in early April.

**Prunus kurilensis**

- **Height:** 6m/6m
- **Product Code:** 5038057003847
- **Synonym:** Myro/St J

  The Common Almond. A small tree with lanceolate pointed leaves. Large pink flowers produced during March. Can be susceptible to leaf curl.
**Prunus lusitanica**

The Portugal Laurel. A small to medium sized evergreen tree with ovate, dark green leaves which have reddish petioles. Scented small white flowers formed in long slender racemes in June and July.

**Prunus serrula**

Smooth reddish-brown bark that peels away to leave rich colour beneath. Small white flowers.

**Prunus subhirtella**

A small tree with semi-double white flowers from November to March on the bare branches.

**Prunus subhirtella Autumnalis**

A small tree with semi-double, pale pink flowers from November to March on the bare branches.

**Prunus x blireana**

Rich coppery-purple leaf colour holds over the summer with double, slightly fragrant, rose-pink flowers.

**Prunus x hillieri**

Excellent small tree. Leaves with rich autumn tint and soft pink single flowers.

**Prunus x yedoensis**

Weeping habit. Almond scented, single blush-white flowers.
**Ornamental Trees**

**Prunus**

**Accolade**
- Colt 5038057001058 6m/4m
- Profusion of rich pink, semi-double flowers arranged in pendulous clusters in early spring.

**Amanogawa**
- Colt 5038057001065 6m/2m
- A small tree of columnar habit which is ideally suited for smaller gardens. Upright clusters of semi-double shell-pink flowers in mid to late season.

**Chocolate Ice**
- Colt 5038057004356 4m/4m
- An attractive small tree with an upright growing habit and deep coppery-brown young leaves that help to show off the large, single blush-white flowers which form during April.

**Fragrant Cloud**
- Colt 5038057003809 6m/4m
- A strong, upright growing variety with large clusters of richly scented, semi-double white flowers which are formed during May and will turn pinkish with age.

**Jacqueline**
- Colt 5038057013440 6m/4m
- Stunning pink blossoms in April and outstanding autumn colour. With its upright, graceful habit it will be a feature in any medium to large garden.

**Kanzan**
- Colt 5038057001171 3m/3m
- Stiffly ascending branches. Showy large double pink flowers are in abundance in late April.

**Kiku-shidare Sakura**
- Colt 5038057001188 3m/3m
- A small tree with pendulous branches, very attractive when covered with the clear, deep pink, double flowers. The young leaves are bronze-green turning to glossy green.

**Kiku-shidare Sakura TW 150cm stem**
- Colt 5038057001195 2.5/2.5m
- As Kiku-shidare Sakura with 150cm stem top worked.

**Kursar**
- Colt 5038057001201 3m/3m
- Reddish-bronze young leaves with rich, deep pink flowers and brilliant orange leaves throughout autumn.
Prunus Jacqueline
A relatively new flowering cherry introduction which features stunning pink blossoms in April and outstanding autumn colours. With its upright, graceful habit it will be a feature in any medium to large garden.

6m x 4m in 20 years.
**Okame**
Colt 5038057001218 4m/4m
Excellent small tree. Masses of carmine-rose flowers throughout March. Very attractive autumn colour.

**Pandora**
Colt 5038057001225 5m/3m
Upright habit, spreading with age. Bronze young leaves, orange-red in autumn with single pink flowers.

**Pink Perfection**
Colt 5038057001232 3m/3m
Bronze young leaves. Double, rose-pink flowers appearing in long clusters.

**Princess**
Myro/St J 5038057012672 3m/3m
The branches are covered in clusters of pale pink flowers all through spring. The oval-shaped green leaves contrast with the smooth, glossy deep brown bark. It also has edible plums.

**Royal Burgundy**
Colt 5038057001249 5m/3m

**Royal Flame (P)**
Colt 5038057013556 5m/3m
Fully covered with pure white, fragrant flowers in early spring and bronze-coloured young foliage which matures to a bright green in summer. Has upright growth with a pyramidal, uniformly branched crown.

**Shirofugen**
Colt 5038057001272 6m/6m
Coppery young leaves. Flowers pink in bud opening to double white and then turning pink.

**Shirotae**
Colt 5038057001294 4m/5m
Vigorous tree, slightly drooping branches. Distinctly fringed leaves. Large, fragrant, single to semi-double white flowers appear in long clusters.

**Shogetsu**
Colt 5038057001287 4m/6m
The ‘Blushing Bride’ has large, pure white, double flowers, pink in bud. Stunning orange-red autumn colour. Fantastic elegant spreading habit.
Prunus Princess
A truly pretty tree perfect for small to medium gardens, the branches are covered in clusters of pale pink flowers all through the spring. The oval-shaped green leaves contrast with the smooth, glossy deep brown bark. Lovely autumn colour complimented by edible plums.

3m x 3m in 20 years.
Prunus Snow Showers
(Hillings Weeping)
A beautiful small weeping tree suitable for small gardens. Masses of single white flowers clothe the pendulous branches in late March and early April. Rich autumn foliage colour. Very popular with bees!

3m x 3m in 20 years.
**Prunus**

**Prunus**

**Snow Showers**

Colt 5038057004394 3m/3m

A beautiful small weeping tree suitable for small gardens. Masses of single white flowers clothe the pendulous branches in late March and early April. Rich autumn foliage colour.

**Prunus**

**Tai Haku**

Colt 5038057001355 6m/5m

Very large, single white flowers show up well against the copper coloured young foliage in mid April.

**Prunus**

**Ukon**

Colt 5038057001386 5m/4m

Spreading habit with semi-double pale yellow-green flowers. The young foliage is a brownish-bronze.

**Pyrus**

**Pyrus calleryana**

Calleryana 5038057007654 5m/3m

A narrow, pyramidal growing habit with glossy green leaves which turn shades of purple and red during autumn. Masses of white flowers are formed during March and April.

**Pyrus salicifolia**

Calleryana 5038057001409 4m/4m

The Weeping Pear. Silver, willow-like leaves on pendulous branches. Small white flowers produced in April and May.

**Quercus**

**Quercus ilex**

5038057001416 10m/6m

Evergreen Oak or Holm Oak. A large but slow growing tree with attractive bark. Leathery, dark green glossy leaves. Thrives in coastal areas.

**Quercus robur**

5038057001423 10m/6m

Common or English Oak. A slow growing, but ultimately large and long-lived tree. Leaves shalllowly lobed with numerous fruits or acorns in the autumn.

**Quercus rubra**

5038057001430 10m/8m

The Red Oak. Large, oval, lobed leaves turn red and finally brown before falling in autumn.

**Robinia**

**Robinia pseudoacacia**

Frisia 5038057001447 8m/4m

A small to medium sized tree with leaves that are a rich golden yellow from spring to autumn.
Robinia x margaretta

Pink Cascade

A small to medium sized tree with leaves that are a rich golden yellow from spring to autumn.

Robinia x slavini

Hillieri

Delicate green leaves with racemes of lilac-pink flowers which appear in early summer and are slightly fragrant.

Salix alba

Britzensis

Most conspicuous in the winter when the branches are brilliant scarlet-orange and show up well.

Salix caprea

Pendula TW 120cm stem

The Kilmarnock Willow. A small, umbrella-like tree with stiffly pendulous branches. Attractive silvery catkins studded with golden anthers in the late winter. Top worked onto a bare S. caprea stem.

Salix caprea

Pendula TW 150cm stem

As the Pendula TW 120cm stem but with a 150cm stem top worked.

Salix chrysocoma

A beautiful medium sized, wide-spreading, weeping tree. The bark is a golden yellow colour and contrasts well with the lime green leaves. Catkins appear with the leaves in late April.

Salix matsudana

Tortuosa

An unusual feathered form of tree with branches which are both twisted and contorted. Ideal for damp conditions.

Salix purpurea

Pendula TW 150cm stem

An attractive form with long, pendulous purple branches and narrow blue-green leaves. 150cm stem top worked.

Salix

Erythroflexuosa

A small tree with vigorous orange-yellow shoots that are twisted and contorted, as are the narrow leaves.
### Salix

**Salix nigra**

- **Golden Tower (P)**
  - **Height/Spread**: 1.5m/1m
  - **Barcode**: 5038057013303
  - Described as an elegant, narrow upright growth with showy, yellow-green foliage. The leaves have a gorgeous, deeply incised shape. Pretty white flower clusters appear in summer.

**Salix alba**

- **Nishiki TW 120cm stem**
  - **Height/Spread**: 2m/2m
  - **Barcode**: 5038057001546
  - Top worked onto a 120cm stem. Red stems contrast against the cream and pink variegated foliage.

- **Nishiki TW 150cm stem**
  - **Height/Spread**: 2.5/2.5m
  - **Barcode**: 5038057001539
  - As the Nishiki TW 120cm stem but with a 150cm stem top worked.

**Salix caprea**

- **Sheerwater Seedling**
  - **Height/Spread**: 6m/3m
  - **Barcode**: 5038057001614
  - A compact, upright tree with ascending branches and large clusters of orange-red fruits in autumn.

### Sambucus

**Sambucus nigra**

- **Black Lace (P)**
  - **Height/Spread**: 1.5/1.5m
  - **Barcode**: 5038057005414
  - Deep burgundy-black, deeply dissected foliage from spring to autumn with creamy-pink flower buds that open to flat heads of small creamy-pink flowers in early summer. Purple-black berries follow.

- **Sambucus nigra**
  - **Golden Tower (P)**
    - **Height/Spread**: 1.5m/1m
    - **Barcode**: 5038057013303
    - 'Whitebeam'. Upper surface of the leaves is covered by a dense creamy-white tomentum, which becomes grey-green by late summer. Deep red fruits are formed later in the year.

- **Sambucus nigra**
  - **Lutescens**
    - **Height/Spread**: 6m/3m
    - **Barcode**: 5038057001560
    - An elegant tree with fern-like foliage that turns bright red in autumn. Red berries form in large bunches in autumn.

**Sorbus aria**

- **Sorbus aria**
  - **Asplenifolia**
    - **Height/Spread**: 6m/3m
    - **Barcode**: 5038057001584
    - An elegant tree with fern-like foliage that turns bright red in autumn. Red berries form in large bunches in autumn.

**Sorbus aucuparia**

- **Sorbus aucuparia**
  - **Cardinal Royal**
    - **Height/Spread**: 15m/7m
    - **Barcode**: 5038057001591
    - Narrow, upright habit. Dark green leaves, silvery beneath, changing to red in the autumn. Clusters of bright red fruits.

- **Sorbus aucuparia**
  - **Chinese Lace**
    - **Height/Spread**: 5m/4m
    - **Barcode**: 5038057001607
    - Upright habit. Deeply dissected leaves turning red-purple in autumn. Dark red fruits.

- **Sorbus aucuparia**
  - **Sheerwater Seedling**
    - **Height/Spread**: 6m/3m
    - **Barcode**: 5038057001614
    - A compact, upright tree with ascending branches and large clusters of orange-red fruits in autumn.
Sorbus commixta Olympic Flame
A superb selection of Sorbus Dodong, with large shiny green foliage which turns an amazing brilliant orange-red colour in autumn. Creamy-white flowers followed by orange-red berries.

6m x 4m in 20 years.
